California Corporation Franchise or Income Tax Return

References in these instructions are to the Internal Revenue Code (IRC) as of **January 1, 1998**, and to the California Revenue and Taxation Code (R&TC).

What's New

For any taxable years beginning on or after January 1, 2000, C corporations filing on a water's-edge basis are required to use new Form 100W, California Corporation Franchise or Income Tax Return - Water's-Edge Filers, to file their California tax return. S corporations filing on water's-edge basis should continue to file Form 100S.

Effective for years beginning on or after January 1, 2000, references to "income year" were replaced with "taxable year" in all provisions of the Bank and Corporation Tax Law (B&CTL), the Administration of the Franchise and Income Tax Law (AFITL), and the Personal Income Tax Law (PITL). Therefore, all forms and instructions have been revised to replace the term "income year" with "taxable year." When referring to an income measurement period beginning before January 1, 2000, the term "taxable year" should be interpreted to mean "income year" as that term applied for those periods prior to January 1, 2000.

Tax Law Changes

In general, California tax law conforms to the Internal Revenue Code (IRC) as of January 1, 1998. However, there are continuing differences between California and federal tax law. California has not conformed to most of the changes made to the IRC by the federal Internal Revenue Service Restructuring and Reform Act of 1998 (Public Law 105-206) and has not conformed to any of the changes made by the Tax and Trade Relief Extension Act of 1998 (Public Law 105-277), the Miscellaneous Trade and Technical Corrections Act of 1999 (Public Law 106-36), and the Ticket to Work and Work Incentives Improvement Act of 1999 (Public Law 106-170).

California law changes effective for taxable years beginning on or after January 1, 2000.

- The Franchise Tax Board may request taxpayers to furnish a copy of California or federal tax returns that are or were subject to, or related to, a federal audit.
- For taxpayers that claimed a business expense deduction for the smog impact fee when it was paid, the refund and the interest on the refund should be included in California gross income.
- Revenue and Taxation Code (R&TC) Section 18622 defines the date of a "final federal determination" as the date that each adjustment resulting from a federal examination is assessed pursuant to IRC Section 6203. This new definition of a final federal determination supersedes the previous definition found in Title 18 Cal Code Regs. Section 19059.

- The general Net Operating Loss (NOL) carryover percentage has changed. For taxable years beginning on or after:
 - January 1, 2000, and before January 1, 2002, 55% of the NOL may be carried forward;
 - January 1, 2002, and before January 1, 2004, 60% of the NOL may be carried forward; and
 - January 1, 2004, 65% of the NOL may be carried forward.

Also, any NOL incurred in any taxable year beginning on or after January 1, 2000 may be carried forward for 10 years.

- The new Natural Heritage Preservation Tax Credit (NHPTC) is 55% of the fair market value of the qualified contribution of property donated to the state, any local government, or to any nonprofit organization designated by a local government. The credit is figured on FTB Form 3503, Natural Heritage Preservation Tax Credit.
- For corporations that incorporate or qualify to do business in California on or after January 1, 2000, the prepayment of the minimum franchise tax to the Secretary of State (SOS) is no longer required. For the first taxable year the corporation will compute its tax liability by multiplying its state net income by the appropriate tax rate and will not be subject to the minimum franchise tax. The corporation will become subject to minimum franchise tax beginning in its second taxable year.
- Effective January 1, 2000, single member limited liability companies are authorized to organize in California.
- The sunset date of January 1, 2000, was eliminated and instead provides that the chapter authorizing the Tax Credit Allocation Committee to allocate the credit for the costs of constructing or rehabilitating low-income housing shall be in effect so long as the federal low-income housing credit is in effect.
- The state credit for "qualified research expenses" was increased from 12% to 15%.

Important Information

California conforms to federal law for the following provisions:

- Repeal of installment method alternative minimum tax (AMT) adjustment for farmers for payments received in taxable years beginning on or after January 1, 1997, for installment sales made in taxable years beginning after December 31, 1987.
- Enhanced charitable contribution deduction for corporate contributions of computer technology and equipment. Corporations will receive an additional

deduction for contributing computer technology and equipment to be used for educational purposes by schools located in California. The additional deduction is equal to the corporation's basis in the property plus one-half of the amount of ordinary income that would have been realized if the property had been sold. This provision does not apply to contributions made during any taxable year beginning on or after January 1, 2000.

- Repeal of depreciation adjustment for AMT. The same recovery periods are used for regular tax and AMT. The depreciation methods used may be different.
- Expensing of Environmental Remediation Costs. Certain environmental remediation expenditures that would otherwise be chargeable to capital accounts may be expensed and taken as a deduction in the year the expense was paid or incurred. An election to expense environmental remediation costs for federal purposes is considered an election for state purposes and a separate election is not allowed.
- Shrinkage Estimates for Inventory Accounting. For purposes of inventory accounting, an adjustment for shrinkage, based on an estimate, may be made. Taxpayers can voluntarily change their method of accounting if the method currently being used does not utilize estimates of inventory shrinkage and the taxpayer now wishes to use that method.
- Timeshare associations may qualify for tax-exempt status like other homeowners' associations.
- Required recognition of gain on certain appreciated financial positions in personal property.
- Election of mark-to-market for securities and commodities traders. Allows securities traders and commodities traders and dealers to elect to use mark-to-market accounting similar to what is currently required for securities dealers. Commodities would include only commodities of a kind that are dealt with in the organized commodities exchange. An election to use the mark-to-market method for federal purposes is considered an election for state purposes and a separate election is not allowed.
- Limitation on exception for investment companies under IRC Section 351.
- Expansion of deduction for certain interest and premiums paid for company-owned life insurance.
- Modification of holding period applicable to dividends received deduction.
- Repeal of special installment sales rule for manufacturers of tangible personal property.
- Required registration for abusive tax shelters.

- 1995 ESOPs provisions. Existing federal law provides special tax rules for the purchase of employer securities by employees of the issuing company under IRC Section 1042. State law previously conformed to these provisions except for the 1995 taxable year. California law now conforms to these provisions for the year 1995.

California law does not conform to federal law for the following:

- Temporary suspension of income limitations on percentage depletion for production from marginal wells. The percentage depletion deduction, which may not exceed 65% of the taxpayer's taxable income, is restricted to 100% of the net income derived from the oil or gas well property.
- The federal repeal of the installment method for accrual basis taxpayers (IRC Section 536(a)). Accrual basis taxpayers may still use the installment method for California.
- Decreased capital gains tax rate.
- Exemption from AMT for small corporations.
- Accelerated depreciation for property on Indian Reservations.
- AMT treatment of contributions of appreciated property.
- The elimination of the deduction for club membership fees. Also, California law does not conform to the disallowance of the deduction for employee remuneration in excess of \$1 million.
- The federal provisions disallowing the deduction for lobbying expenses. The expense is still deductible for California purposes.
- The treatment of Subpart F and Section 936 income.
- The IRC passive activity loss rules for real estate activities.

California Taxpayers That are 25% Foreign-Owned U.S. Corporations and Foreign Corporations

Corporations that are required to file federal Form(s) 5472, Information Return of a 25% Foreign-Owned U.S. Corporation or a Foreign Corporation Engaged in a U.S. Trade or Business, with the federal return must attach a copy(s) to the California return. The penalty for failing to include Form(s) 5472 as required is \$10,000 per form. See General Information M, Penalties, for more information.

Information Return for U.S. Taxpayers Who Have Ownership (directly or indirectly) in a Foreign Corporation

For taxable years beginning on or after January 1, 1997, U. S. taxpayers who have an ownership interest (directly or indirectly) in a foreign corporation and were required to file federal Form(s) 5471, Information Return of U.S. Persons With Respect to Certain Foreign Corporations, with the federal return, must attach a copy(s) to the California return. The penalty for failure to include a copy of federal Form(s) 5471 as required is \$1,000 per

required form for each year the failure occurs. See General Information M, Penalties, for more information.

Records Maintenance Requirements

Any taxpayer subject to the apportionment and allocation provisions of the Bank and Corporation Tax Law is required to keep and maintain records and make the following available upon request:

- Any records needed to determine the correct treatment of items reported on the combined report for purposes of determining the income attributable to California;
- Any records needed to determine the treatment of items as nonbusiness or business income; and
- Any records needed to determine the apportionment factors.

See R&TC Section 19141.6 and the regulations thereunder for more information. A corporation may be required to authorize an agent to act on its behalf in response to requests for information or records pursuant to R&TC Section 19504.

Note: For information about the Power of Attorney, go to our website at:

www.ftb.ca.gov

The penalty for failure to maintain the above required records is \$10,000 for each taxable year for which the failure applies. In addition, if the failure continues for more than 90 days after the FTB notifies the corporation of the failure, in general, a penalty of \$10,000 may be assessed for each additional 30-day period of continued failure. For taxable years beginning on or after January 1, 1996, there is no maximum amount of penalty that may be assessed. See General Information M, Penalties, for more information.

Small Business Stock Questionnaire

An information questionnaire, form FTB 3565, Small Business Stock Questionnaire, is included in this booklet. The purpose of this questionnaire is to provide information regarding an issuance of stock pursuant to R&TC Section 18152.5. For taxable years beginning on or after January 1, 1996, corporations that issue stock intended to be qualified small business stock are required to attach form FTB 3565 to Form 100. See the instructions for form FTB 3565.

Publicly Traded Partnerships

California publicly traded partnerships that are not eligible to make the special federal election under IRC Section 7704(g)(2), and that do not qualify for the exception for partnerships with passive-type income under IRC Section 7704(c), must file Form 100 for taxable years beginning on or after January 1, 1998. An election under IRC Section 7704(g)(2) for federal purposes is considered an election for state purposes, and a separate election is not allowed.

Financial Asset Securitization Investment Trusts (FASITs)

The provisions of the IRC relating to FASITs apply for California with certain modifications. The FASIT is subject to the \$800 minimum

tax. A separate Form 100 should be filed to report the \$800 minimum tax. Write "FASIT" in red in the top margin of the return. If a corporation holds an ownership interest in a FASIT, it should report all the items of income, gain, deductions, losses, and credits on the corporation's return and attach a schedule showing the breakdown of items from the FASIT.

Classification of Certain Business Trusts and Certain Foreign Single Member Limited Liability Companies (LLCs)

Normally, the classification of a business entity should be the same for California purposes as it is for federal purposes. However, an exception may apply for certain eligible business entities (business trusts and single member LLCs) existing prior to January 1, 1997 that were taxed as corporations for California purposes under former R&TC Section 23038. If such an existing eligible business entity is, without an election for federal purposes, classified as a partnership (in the case of a business trust) or disregarded (in the case of a single member LLC) for taxable years beginning on or after January 1, 1997, the entity may elect to be classified the same as federal for taxable years beginning on or after January 1, 1997, for California. If this election is not made, the existing eligible business entity will continue to be classified and taxed as a corporation for California purposes. Get form FTB 3574, Special Election for Business Trusts and Certain Foreign Single Member LLCs, for more information.

General Information

Form 100 is California's tax return for corporations, banks, financial corporations, real estate mortgage investment conduits (REMICs), regulated investment companies (RICs), real estate investment trusts (REITs), Massachusetts or business trusts, publicly traded partnerships (PTPs), exempt homeowners' associations (HOAs), political action committees (PACs), FASITs and LLCs, and partnerships taxed as corporations.

For taxable years beginning on or after January 1, 2000, corporations filing on water's-edge basis are required to use the new Form 100W to file their California tax return. Get the Form 100W, Water's Edge Booklet, for more information. REMICs that are partnerships must file Form 565, Partnership Return of Income. S corporations must file Form 100S, California S Corporation Franchise or Income Tax Return.

An LLC classified as a partnership for federal purposes should generally file Form 568, Limited Liability Company Return of Income. A limited partnership (LP) or limited liability partnership (LLP) classified as a partnership for federal purposes should generally file Form 565, Partnership Return of Income.

A Franchise or Income Tax

Corporation franchise tax

Entities subject to the corporation franchise tax include all corporations (including LLCs or other business entities electing to be taxed as corporations) that are:

- Incorporated or organized in California; or
- Qualified or registered to do business in California; or
- Doing business in California, whether or not incorporated, organized, qualified, or registered under California law.

The franchise tax is measured by the income of the current taxable year for the privilege of doing business in that taxable year.

The term "doing business" means actively engaging in any transaction for the purpose of financial gain or profit.

Corporation income tax

The corporation income tax is imposed on all corporations that derive income from sources within California but are not doing business in California.

For purposes of the corporation income tax, the term "corporation" generally includes:

- Associations;
- Massachusetts or business trusts;
- REITs;
- LLCs electing to be taxed as corporations other than those subject to the corporate franchise tax; and
- Other business entities, including partnerships, electing to be taxed as corporations.

Political organizations that are exempt under R&TC Section 23701r and have political taxable income in excess of \$100 must file Form 100. Political organization taxable income is the amount by which gross income (other than exempt function income) less deductions directly connected with production of such gross income exceeds \$100. See the instructions for Schedule F, Computation of Net Income, included in this booklet. Exempt function income includes amounts received as:

- Contributions of money or property;
- Membership fees, dues, or assessments; or
- Proceeds from the sale of political campaign material that are not received in the ordinary course of any trade or business.

Get FTB Pub. 1075, Exempt Organizations - Guide for Political Organizations, for more information.

Homeowners' associations that are exempt under R&TC Section 23701t and have homeowners' association taxable income must file Form 100. Homeowners' association taxable income is the amount by which gross income (other than exempt function income) less deductions directly connected with the production of such gross income exceeds \$100. See the instructions for Schedule F, Computation of Net Income, included in this booklet. Exempt function income means

amounts received as membership fees, dues, and assessments. Nonexempt gross income of a homeowners' association is defined as all income other than amounts received from membership fees, dues, or assessments.

Note: An exempt homeowners' association may also be required to file Form 199, California Exempt Organization Annual Information Return. Get FTB Pub. 1028, Guidelines for Homeowners' Associations, for more information.

B Tax Rates

The tax rates below apply to corporations subject to either the corporation franchise tax or the corporation income tax.

- Corporations other than banks and financial corporations 8.84%
- Banks and financial corporations 10.84%

C Minimum Franchise Tax

All corporations subject to the franchise tax, including banks, financial corporations, corporate general partners of partnerships, and corporate members of LLCs doing business in California, must file Form 100 and pay at least the minimum franchise tax as required by law. The minimum franchise tax, as indicated below, must be paid whether the corporation is active, inactive, operates at a loss, or files a return for a short period of less than 12 months.

- Domestic qualified inactive gold or quicksilver mining corporations \$25
- All other corporations subject to franchise tax (see General Information A, Franchise or Income Tax, for definitions) \$800

A combined group filing a single return must pay at least the minimum franchise tax for each corporation in the group that is subject to franchise tax.

Note: For corporations that incorporate or qualify to do business in California on or after January 1, 2000, the prepayment of the minimum franchise tax to the SOS is no longer required. For the first taxable year the corporation will compute its tax liability by multiplying its state net income by the appropriate tax rate and will not be subject to the minimum franchise tax. The corporation will become subject to minimum franchise tax beginning in its second taxable year. This does not apply to corporations that reorganize solely to avoid payment of its minimum franchise tax.

There is no minimum franchise tax for:

- Corporations that derive income from sources within California but are subject only to income tax because they are not "doing business" in California, and are not incorporated or qualified under the laws of California (get FTB Pub. 1050, FTB Pub. 1060, or FTB Pub. 1063 for more information regarding "doing business");
- Qualified non-profit farm cooperative associations;

- Credit unions;
- Exempt homeowners' associations;
- Exempt political organizations;
- Exempt organizations;
- Corporations that are not incorporated under the laws of California; whose sole activities in this state are engaging in convention and trade show activities for seven or fewer days during the taxable year; and do not derive more than \$10,000 of gross income reportable to this state during the taxable year. These corporations are not "doing business" in California, (get FTB Pub. 1060 for more information); and
- Newly formed corporations filing an initial return for a taxable year beginning on or after January 1, 2000.

D Accounting Period/Method

The taxable year of a corporation must not be different from the taxable year used for federal purposes, unless initiated or approved by the FTB (R&TC Section 24632).

A change in accounting method requires consent from the FTB. However, a corporation that obtains federal approval to change its accounting method, or that is permitted or required by federal law to change its accounting method without prior approval and does so, is deemed to have the FTB's approval if: (1) the corporation files Form 100 consistent with the change for the first year the change becomes effective for federal law; and (2) the change is consistent with California law.

A copy of federal Form 3115, Application for Change in Accounting Method, and a copy of the federal consent to the change must be attached to Form 100 for the first year the change becomes effective. The FTB may modify a requested change if the change would distort income for California purposes.

Note: California is not following the automatic consent procedure for a change of accounting method involving previously unclaimed allowable depreciation or amortization of Federal Revenue Procedure 96-31. Get FTB Notice 96-3 for more information.

If the corporation is a bank, a savings and loan association, or a financial corporation, it can no longer use the bad debt reserve method of accounting and elect to be, or continue to be, an S corporation for taxable years beginning on or after January 1, 1997. However, the S corporation status can be maintained or elected if the corporation changes accounting method from the bad debt reserve method to the specific write-off method. Get FTB Notice 98-3 for more information.

E When to File

File Form 100 on or before the 15th day of the 3rd month after the close of the taxable year unless the return is for a short period as required under R&TC Section 24634. Generally, the due date of a short period return is the same as the due date of the federal short period return. See R&TC Section 18601(c) for the due date of a short period return. Farmers'

cooperative associations must file Form 100 by the 15th day of the 9th month after the close of the taxable year. See General Information O, Dissolution/Withdrawal, and P, Ceasing Business, for information on final returns.

F Extension of Time to File

If the corporation cannot file its California tax return by the 15th day of the 3rd month after the close of the taxable year, it may file on or before the 15th day of the 10th month without filing a written request for an extension unless the corporation is suspended on the original due date. This does not extend the time for payment of tax; the full amount of tax must be paid by the original due date of Form 100. If there is an unpaid tax liability, complete form FTB 3539, Payment Voucher for Automatic Extension for Corporations and Exempt Organizations, included in this booklet, and send it with the payment by the original due date of the Form 100.

Note: If the corporation must pay its tax liability using electronic funds transfer (EFT), all payments must be remitted by EFT to avoid penalties. Do not send form FTB 3539.

G Electronic Funds Transfer (EFT)

Corporations that meet certain requirements must remit all of their payments through EFT rather than by paper check or money order to avoid penalties. Once a corporation remits an estimated tax payment or extension payment in excess of \$20,000, or has a total tax liability in excess of \$80,000 the FTB will notify the corporation that all future payments must be made by EFT. Those that wish to participate on a voluntary basis may do so. For more information, call the FTB EFT Section at (916) 845-4025, or get FTB Pub. 3817, Electronic Funds Transfer Program Information Guide.

H Where to File

If tax is due, and the corporation is not required to use EFT, make the check or money order payable to the Franchise Tax Board. Write the California corporation number and "2000 Form 100" on the check or money order. Mail the return and payment to:

FRANCHISE TAX BOARD
PO BOX 942857
SACRAMENTO CA 94257-0501

Mail all other returns, including those with payment by EFT, to:

FRANCHISE TAX BOARD
PO BOX 942857
SACRAMENTO CA 94257-0500

Private Delivery Services

California law conforms to federal law regarding the use of certain designated private delivery services to meet the "timely mailing as timely filing/paying" rule for tax returns and payments. See federal Form 1120, U.S. Corporation Income Tax Return, for a list

of designated delivery services. If a private delivery service is used, address the return to:

FRANCHISE TAX BOARD
SACRAMENTO CA 95827

Caution: Private delivery services cannot deliver items to PO boxes. If using one of these services to mail any item to the FTB, **DO NOT** use an FTB PO box.

Private Mailbox (PMB) Number

If you lease a private mailbox (PMB) from a private business rather than a PO box from the United States Postal Service, include the box number in the field labeled "PMB no." in the address area.

I Net Income Computation

The computation of net income from trade or business activities generally follows the determination of taxable income as provided in the IRC. However, there are differences that must be taken into account when completing Form 100. There are two ways to complete Form 100, the federal reconciliation method or the California computation method:

1. Federal reconciliation method

- Attach a copy of federal Form 1120 or Form 1120A, Page 1, U.S. Corporation Income Tax Return and all pertinent supporting schedules, or transfer the information from federal Form 1120 or Form 1120A, Page 1, to Schedule F and attach all pertinent schedules;
- Enter the amount of federal ordinary income (loss) from trade or business activities before any net operating loss (NOL) on Form 100, Side 1, line 1; and
- Enter state adjustments on line 2 through line 16 to arrive at net income after state adjustments, Side 1, line 17.

2. Schedule F – California computation

If the corporation has no federal filing requirement or if the corporation maintains separate records for state purposes, complete Form 100, Schedule F, to determine state ordinary income. If ordinary income is computed under California laws, generally no state adjustments are necessary. Transfer the amount from Schedule F, line 30, to Side 1, line 1. Complete Form 100, Side 1, line 2 through line 16, only if applicable.

For more information, see the specific line instructions.

Note: Regardless of the net income computation method used, the corporation must attach any form, schedule, or supporting document referred to on the return, schedules, or forms filed with the FTB.

J Alternative Minimum Tax

Corporations that claim certain types of deductions, exclusions, and credits may be subject to California's alternative minimum tax (AMT). Generally, corporations that complete federal Form 4626, Alternative Minimum Tax — Corporations, must also complete

California Schedule P (100), Alternative Minimum Tax and Credit Limitations — Corporations. See Schedule P (100), included in this booklet, for more information.

K Estimated Tax

Every bank and corporation must pay estimated tax using Form 100-ES, Corporation Estimated Tax. Estimated tax is generally due and payable in four installments:

- The 1st payment is due by the 15th day of the 4th month of the taxable year (note that this payment may not be less than the minimum franchise tax, if applicable); and
- The 2nd, 3rd, and 4th installments are due and payable by the 15th day of the 6th, 9th, and 12th months respectively, of the taxable year.

Note for first-time filers: The prepayment of tax made to the California SOS at the time of incorporation or qualification was for the privilege of "doing business" during the corporation's **first** taxable year. **Do not** claim this payment as an estimated tax payment or credit against the tax liability shown on the return for the corporation's first year.

California law has conformed to the federal expanded annualization periods for the computation of estimate payments. For taxable years beginning on or after January 1, 1998, the applicable percentage for estimate basis is 100%.

Get the instructions for Form 100-ES for more information.

Note: If the corporation must pay its tax liability using EFT, ALL estimate payments due **must** be remitted by EFT to avoid penalties.

L Commencing Corporations

For taxable years beginning on or after January 1, 2000, no minimum tax is required for the first taxable year. See General Information C, Minimum Franchise Tax, for more information.

Get FTB Pub. 1060, Guide for Corporations Starting Business in California, for more information.

M Penalties

Failure to file a timely return

Any corporation that fails to file Form 100 on or before the extended due date is assessed a penalty. The penalty is 5% of the unpaid tax for each month, or part of the month, the return remains unfiled from the due date of the return until filed. The penalty may not exceed 25% of the unpaid tax. If a corporation does not file its return by the extended due date, the automatic extension will not apply and the late filing penalty will be assessed from the original due date of the return. See R&TC Sections 19131 and 23772 for more information.

Failure to pay total tax by the due date

Any corporation that fails to pay the total tax shown on Form 100 by the original due date

is assessed a penalty. The penalty is 5% of the unpaid tax, plus 0.5% for each month, or part of the month (not to exceed 40 months), the tax remains unpaid. This penalty may not exceed 25% of the unpaid tax. See R&TC Section 19132 for more information.

Note: If a corporation is subject to both the penalty for failure to file a timely return and the penalty for failure to pay the total tax by the due date, a combination of the two penalties may be assessed, but the total penalty may not exceed 25% of the unpaid tax.

Underpayment of estimated tax

Any corporation that fails to pay, pays late, or underpays an installment of estimated tax is assessed a penalty. The penalty is a percentage of the underpayment for the underpayment period.

Get form FTB 5806, Underpayment of Estimated Tax by Corporations, to determine both the amount of underpayment and the amount of penalty.

See R&TC Sections 19142, 19144, 19145, 19147, 19148, 19149, 19150, 19151, and 19161 for more information

Note: If the corporation uses Exception B or Exception C either to compute or eliminate any of the four installments, form FTB 5806 must be attached to the **front** of Form 100 and the box on Side 1, line 43 should be checked.

EFT Penalty

If the corporation must pay its tax liability using EFT, all payments must be remitted by EFT to avoid penalties. The EFT penalty is 10% of the amount not paid by EFT. See R&TC Section 19011 and General Information G, Electronic Funds Transfer (EFT), for more information.

Information reporting penalties

For taxable years beginning on or after January 1, 1997, U. S. corporations who have an ownership interest (directly or indirectly) in a foreign corporation and were required to file federal Form(s) 5471, Information Return of U.S. Persons With Respect to Certain Foreign Corporations, with the federal return, must attach a copy(s) to the California return. A penalty for failure to include a copy of federal Form(s) 5471, as required, is \$1,000 per required form for each year the failure occurs. The penalty applies for taxable years beginning on or after January 1, 1998. The penalty will not be assessed if the taxpayer provides a copy of the form(s) within 90 days of request from the FTB and the taxpayer agrees to attach a copy(s) of Form 5471 to all returns filed for subsequent years.

Certain domestic corporations that are 25% or more foreign-owned and foreign corporations engaged in a U.S. trade or business must attach federal Form(s) 5472, Information Return of a 25% Foreign-Owned U.S. Corporation or a Foreign Corporation Engaged in a U.S. Trade or Business, to Form 100. The penalty for failing to include Form(s) 5472, as required, is \$10,000 per required form for

each year the failure occurs. See R&TC Section 19141.5 for more information. If the corporation does not file its Form 100 by the due date or extended due date, whichever is later, copies of federal Form(s) 5472 must still be filed on time or the penalty will be imposed. Attach a cover letter to the copies indicating the taxpayer's name, California corporation number, and taxable year. Mail to the same address used for returns without payments. See General Information H, Where to File. When the corporation files Form 100, also attach copies of the federal Form(s) 5472.

Record maintenance penalties

The penalty for failure to maintain certain records is \$10,000 for each taxable year for which the failure applies. In addition, if the failure continues for more than 90 days after the FTB notifies the corporation of the failure, in general, a penalty of \$10,000 may be assessed for each additional 30-day period of continued failure. For taxable years beginning on or after January 1, 1996, there is no maximum amount of penalty that may be assessed.

See the Important Information Section for a discussion of the records required to be maintained. See R&TC Section 19141.6 and the regulations thereunder for more information.

Accuracy and fraud related penalties

California conforms to IRC Sections 6662 through 6665 that authorize the imposition of an accuracy-related penalty equal to 20% of the related underpayment, and the imposition of a fraud penalty equal to 75% of the related underpayment. See R&TC Section 19164 for more information.

Secretary of State penalty

The California Corporations Code requires the FTB to assess a penalty for failure to file a biennial statement of corporate officers with the California SOS. See R&TC Section 19141 for more information.

For more information, contact:

CALIFORNIA SECRETARY OF STATE
PO BOX 944230
SACRAMENTO CA 94244-2300
Telephone: (916) 657-3537

Other penalties

Other penalties may be imposed for a check returned for insufficient funds, non-U.S. foreign corporations operating while forfeited or without qualifying to do business in California, and domestic corporations operating while suspended in California. See R&TC Sections 19134 and 19135 for more information.

N Interest

Interest is due and payable on any tax due if not paid by the original due date of Form 100. Interest is also due on some penalties. The automatic extension of time to file Form 100 does not stop interest from accruing.

California follows federal rules for the calculation of interest. Get FTB Pub. 1138, Refund/Billing Information, for more information.

O Dissolution/Withdrawal

The franchise tax for the period in which the corporation formally dissolves or withdraws is measured by the income of the year in which it ceased doing business in California, unless such income has already been taxed at the rate prescribed for the taxable year of dissolution or withdrawal.

A corporation that commenced doing business in California before January 1, 1972, is allowed a credit that may be refunded in the year of dissolution or withdrawal. The amount of the refundable credit is the difference between the minimum franchise tax for the corporation's first full 12 months of doing business and the total tax paid for the same period.

To claim this credit, add this amount to the value on line 36. Make a notation to the right of Side 1, line 36: "Dissolving/Withdrawing."

The return for the final taxable period is due on or before the 15th day of the 3rd full month after the month during which the corporation formally dissolved or withdrew.

Get FTB Pub. 1149, Terminating a Corporation for more information.

P Ceasing Business

A special tax computation is necessary when a corporation ceases to do business. The tax for the final year in which the corporation does business in California is:

- The tax measured by the income of the preceding year; PLUS
- The tax measured by the income of the year in which the corporation ceases to do business; PLUS
- The tax due on unreported income attributable to installment obligations.

The tax due must be at least the minimum franchise tax. Generally, the corporation will remain subject to the minimum franchise tax for each year it is in existence until it files a certificate of dissolution or withdrawal with the SOS. See General Information O, Dissolution/Withdrawal, and R&TC Sections 23331 through 23335 for more information.

Q Suspension/Forfeiture

If a corporation fails to file Form 100 and/or fails to pay any tax, penalty, or interest due, its powers, rights, and privileges may be suspended (in the case of a domestic

corporation) or forfeited (in the case of a foreign corporation).

Corporations that operate while suspended or forfeited are subject to a \$2,000 penalty, which is in addition to any tax, penalties, and interest already accrued. Also, any contracts entered into during suspension or forfeiture are voidable at the request of any party to the contract other than the suspended or forfeited corporation.

Such contracts will remain voidable and unenforceable unless the corporation applies for relief from contract voidability and the FTB grants relief.

See R&TC Sections 19135, 19719, 23301, 23305.1, and 23305.2 for more information.

R Apportionment of Income

Corporations with business income attributable to sources both within and outside of California are required to apportion such income. To calculate the apportionment percentage, use Schedule R, Apportionment and Allocation of Income. Be sure to answer Question M on Form 100, Side 2.

S Combined Report

If two or more corporations are engaged in a unitary business and derive income from sources within and outside of California, the members of the unitary group that are subject to California's franchise or income tax are required to apportion the combined income of the entire unitary group in order to compute the measure of the tax.

If the income of a unitary group is derived wholly from California sources, its members may either file returns on a separate accounting basis or file on a combined report basis.

Members of a unitary group may elect to file a group single return by filing Schedule R-7, Election to File a Unitary Taxpayers' Group Return and List of Affiliated Corporations. For more information, get Schedule R.

A combined unitary group's single return must present the group's data by separate corporation, as well as in combined format.

The total combined tax, which must include at least the applicable minimum franchise tax for each corporation subject to the franchise tax, must be shown on Form 100, Side 1, line 23.

For more information, get FTB Pub. 1061, Guidelines for Corporations Filing a Combined Report.

T Preparer Tax Identification Number

Beginning January 1, 2000 tax preparers have the option of providing their individual Social Security Number (SSN) or Preparer Tax Identification Number (PTIN) on returns they prepare. The PTIN can be used in lieu of an SSN. Preparers who want a PTIN must complete and submit federal Form W-7P, Application for Preparer Tax Identification Number, to the IRS.

U Amended Return

To correct or change a previously filed Form 100, file the most current Form 100X, Amended Corporation Franchise or Income Tax Return. Using the incorrect form may delay processing of the amended return. File Form 100X within 6 months after the corporation filed an amended federal return or after the final federal determination, if the Internal Revenue Service (IRS) examined and changed the corporation's federal return.

V Information Returns

Every corporation engaged in a trade or business and making or receiving certain payments in the course of the trade or business is required to file information returns to report the amount of such payments.

Payments that must be reported include, but are not limited to, compensation for services not subject to withholding, commissions, fees, prizes and awards, payments to independent contractors, rents, royalties, and pensions exceeding \$600 annually, interest and dividends exceeding \$10 annually, and cash payments over \$10,000 received in a trade or business. Payments of any amount by a broker or barter exchange must also be reported.

Report payments on federal Form 1099 (series). Reports must be made for the calendar year and are due to the IRS no later than February 28th of the year following payment. Corporations must also submit federal Form 8300, Report of Cash Payments Over \$10,000 Received in a Trade or Business, within 15 days after the date of the transaction.

Corporations must report interest paid on municipal bonds held by California taxpayers and issued by a state other than California, or a municipality other than a California municipality. Entities paying interest to California residents on these types of bonds are required to report interest payments aggregating \$10 or more and paid after January 1, 2000. Information returns will be due June 1, 2001. Get form FTB 4800, Federally Tax Exempt Non-California Bond Interest and Interest-Dividend Payment, for more information.

California conforms to the information reporting requirements of IRC Section 6045(f) for certain payments made to attorneys. If the corporation has complied with the requirements for federal purposes, the corporation will be treated as having complied with the requirements for California purposes and no penalty will be imposed.

California conforms to the information reporting requirements imposed under IRC Sections 6038 through 6038C. Any Forms 5471, 5472, or 926 required to be filed for federal purposes under these IRC Sections are also required to be filed for California purposes. These federal information returns

should be attached to the Form 100 when filed. If these information returns are not provided, penalties may be imposed under R&TC Sections 19141.2 and 19141.5.

Mail all information returns required to be filed separate from the tax return to:

SACRAMENTO CA 94257-0500

W Net Operating Loss (NOL)

Carryover periods varying from 5 to 15 years and carryover deductions varying from 50% to 100% are allowed for NOLs sustained by corporations.

For taxable years beginning on or after January 1, 2000, the NOL carryover deduction percentage and periods have been changed. For more information, see Tax Law Changes section on page 3.

R&TC Sections 24416 through 24416.6 and R&TC Section 25108 provide for NOL carryovers incurred in the conduct of a trade or business.

R&TC Section 24347.5 provides special treatment for the carryover of disaster losses incurred in an area designated by the President of the United States or the Governor of California as a disaster area.

For more information, get form FTB 3805Q, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations — Corporations (included in this booklet), or get form FTB 3805Z, Enterprise Zone Business Booklet; form FTB 3806, Los Angeles Revitalization Zone Business Booklet, form FTB 3807, Local Agency Military Base Recovery Area Business Booklet, or form FTB 3809, Targeted Tax Area Business Booklet.

X Limited Liability Companies (LLCs)

California law authorizes the formation of LLCs and recognizes out-of-state LLCs registered or doing business in California. The taxation of an LLC in California depends upon its classification as a corporation, partnership, or "disregarded entity" for federal tax purposes.

If an LLC elects to be taxed as a corporation for federal tax purposes, it must file Form 100. LLCs electing to be taxed as corporations are subject to the applicable provisions of the Bank and Corporation Tax Law.

If an LLC is treated as a partnership for federal tax purposes, it generally must file Form 568. LLCs taxed as partnerships determine their income, deductions, and credits under the Personal Income Tax Law and are subject to an annual tax as well as an annual fee based on total income.

If a single member LLC is disregarded for federal tax purposes, it must file Side 1 of Form 568. A disregarded LLC reports its

income, deductions, and credits on the return of its owner. However, an LLC that is disregarded is subject to the annual LLC tax as well as a fee based on total income. Form 568, Side 1, provides the FTB with information on the sole owner of the LLC, contains the owner's consent to be taxed on the income of the LLC, and provides for the computation of the LLC tax and fee.

Y Qualified New Corporations (QNCs)

Secretary of State prepayment tax

Effective for taxable years beginning on or after January 1, 1999, and before January 1, 2000, the minimum tax prepaid to the California SOS was \$300 for a QNC. For purposes of the \$300 prepaid minimum tax, a QNC was a corporation that reasonably estimates it would:

- Have gross receipts, less returns and allowances, reportable to California of \$1 million or less;
- Have tax liability that did not exceed \$800; and
- Not have 50% or more of its stock owned, upon initial issuance, by another corporation.
- Begin operations at or after the time of its incorporation; and
- Not have begun business prior to its incorporation as a single proprietorship, partnership or other form of business entity.

Gross receipts includes the gross receipts of each member of the commonly controlled group, as defined in R&TC Section 25105, of which the bank or corporation is a member.

If during the first taxable year, the corporation's gross receipts exceeded \$1 million or tax liability exceeds \$800, the corporation must pay an additional amount of \$500, if the corporation prepaid the \$300 minimum tax to the SOS.

The corporation must pay the additional tax on or before the original due date of its first required tax return without regard to extension. See R&TC Section 23221, for more information.

Minimum franchise tax

For taxable years beginning on or after January 1, 1999 and before January 1, 2000, the minimum franchise tax for a QNC for the first return required to be filed was \$500. The minimum franchise tax for the first tax return is due as an estimate payment on the 15th day of the 4th month of the QNC's first taxable year. For purposes of the QNC minimum franchise tax, the corporation must meet the QNC criteria outlined above.

If during the taxable year, the corporation's gross receipts exceed \$1 million or the tax liability exceeded the minimum franchise tax of \$800, the corporation must pay an additional amount of \$300. The corporation must pay the additional amount on or before the original due date of its first required tax

return without regard to extension. See R&TC Section 23153 for more information.

Z New Corporations

New corporations, which begin business on or after January 1, 2000, are no longer required to prepay minimum tax to the SOS.

For taxable years beginning on or after January 1, 2000, no minimum franchise tax will be due with the initial return.

Specific Line Instructions

For taxable years beginning on or after January 1, 2000, C corporations filing on water's-edge basis are required to use the new Form 100W to file their California tax return. Get the Form 100W, Water's Edge Booklet, for more information.

Filing Form 100 without errors will expedite processing. Before mailing Form 100, make sure entries have been made for the:

- California corporation number (7 digits);
- Federal employer identification number (FEIN) (9 digits); and
- Corporation name and address (include PMB no. if applicable).

File the 2000 Form 100 for calendar year 2000 and fiscal years that begin in 2000. Enter taxable year beginning and ending dates **only** if the return is for a short year or a fiscal year. If the corporation reports its income using a calendar year, leave blank. If the return is being filed for a short period of less than 12 months, write "short year" in red in the top margin. Convert all foreign monetary amounts to U.S. dollars.

Note: The 2000 Form 100 may also be used if:

- The corporation has a taxable year of less than 12 months that begins and ends in 2001; and
- The 2001 Form 100 is not available at the time the corporation is required to file its return. The corporation must show its 2001 taxable year on the 2000 Form 100 and incorporate any tax law changes that are effective for taxable years beginning after December 31, 2000.

Questions A through Z

Answer all applicable questions and attach additional sheets, if necessary. Be sure to answer Questions E through Z on Side 2. Note the following instructions when answering:

Question E – Principal business activity (PBA) code

All corporations **must** answer Question E. Include the 6 digit PBA code from the chart found on page 15 through page 17 of this booklet. The code should be the number for the specific industry group from which the greatest percentage of California "total receipts" is derived. "Total receipts" means gross receipts plus all other income. The California code number may be different from the federal code number.

If, as its principal business activity, the corporation: (1) purchases raw material; (2) subcontracts out for labor to make a finished product from the raw materials; and (3) retains title to the goods, the corporation is considered to be a manufacturer and must enter one of the codes under "Manufacturing." Also, write in the business activity and the principal product or service on the lines provided.

Question J – Transfer or acquisition of voting stock

All corporations **must** answer Question J. If the answer is "Yes," a Statement of Change in Control and Ownership of Legal Entities (BOE-100-B) must be filed with the State Board of Equalization (BOE), or substantial penalties may result. Forms and information may be obtained from the BOE at (916) 323-5685.

Answer "Yes" if:

- The percentage of outstanding voting shares of this corporation or its subsidiary(ies) owned by **one** person or **one** entity cumulatively exceeded 50% during this year; or
- The total of voting shares transferred to one irrevocable trust cumulatively exceeded 50% during this year; or
- One or more irrevocable proxies transferred voting rights to more than 50% of the outstanding shares to **one** person or **one** entity during this year; or
- This corporation's cumulative ownership or control of the stock or other ownership interest in any legal entity exceeded 50% during this year; or
- Cumulatively more than 50% of the total outstanding shares of this corporation have transferred, changed ownership or control during this year.

R&TC Section 64(e) requires this information for use by the California State BOE.

Question S – Regulated Investment Company (RIC)

California conforms to federal law for taxable years beginning on or after January 1, 1998, for the provisions related to the repeal of the 30% gross income test for RICs.

Question T – Real Estate Mortgage Investment Conduit (REMIC)

If a corporation is a REMIC for federal purposes, it is deemed to be a REMIC for California purposes. A REMIC is subject to the minimum franchise tax but is not subject to the income or franchise tax. The income of a REMIC is taxable to the holders of the REMIC interests. In order to qualify, substantially all of the assets of the entity must consist of "qualified mortgages" and "permitted investments." See the instructions for federal Form 1066, U.S. Real Estate Mortgage Investment Conduit Income Tax Return, to determine if the corporation qualifies. California law is the same as federal law, except California does not impose a tax on prohibited transactions, as defined in IRC

Section 860F. However, the income or gain from such prohibited transactions remains includible in the California tax base. If the corporation is a REMIC for federal purposes, answer "Yes" to Question T, complete Form 100 and attach a copy of federal Form 1066.

Question U – Real Estate Investment Trust (REIT)

California conforms to the federal law relating to REITs, except for the provisions relating to retaining capital gain tax credit added by Section 1254 of the Taxpayer Relief Act of 1997, and various alternative taxes imposed on certain income and activities of REITs (although such income amounts remain includible in the California tax base). Additionally, a federal election to treat property as foreclosure property under IRC Section 856(e)(5) is considered to be an election for California as well. No separate elections are allowed.

Question V – Limited liability company (LLC) or Limited Partnership

Answer "Yes" only if the business entity for which the Form 100 is being filed is organized as an LLC or limited partnership but is classified as a corporation for federal tax purposes. An LLC classified as a partnership for federal purposes should generally file Form 568. A limited partnership should file Form 565.

Line 1 through Line 44

Line 1 – Net income (loss) before state adjustments

Corporations using the federal reconciliation method to figure net income (see General Information I, Net Income Computation) must:

- Transfer the amount from federal Form 1120, line 28; or federal Form 1120A, line 24, to line 1; and attach a copy of the federal return and all pertinent supporting schedules; or copy the information from federal Form 1120 or Form 1120A, Page 1, onto Schedule F and transfer the amount from Schedule F, line 30, to line 1.
- Then, complete Form 100, Side 1, line 2 through line 16, State Adjustments.

Corporations using the California computation method to figure net income (see General Information I) must transfer the amount from Side 3, Schedule F, line 30, to line 1. Complete Form 100, Side 1, line 2 through line 16, only if applicable.

Line 2 through Line 16 – State adjustments

To figure net income for California purposes, corporations using the federal reconciliation method must enter California adjustments to the federal net income on line 2 through line 16. If a specific line for the adjustment is not on Form 100, corporations must enter the adjustment on line 8, Other additions, or line 15, Other deductions, and attach a schedule that explains the adjustment.

Line 2 and Line 3 – Taxes not deductible

California does not permit a deduction of California corporation franchise or income taxes or any other taxes on, according to, or measured by net income or profits. Such taxes that are shown on Form 100, Schedule A, must be added to income by entering the amount on Side 1, line 2 or line 3 (see Schedule A, column (d) for the amount to be added to income). California does not permit a deduction for environmental taxes imposed by IRC Section 59A.

The LLC fee is not a tax (R&TC Section 23092); therefore, it is deductible. Do not include any part of an LLC fee on line 2 or line 3.

Line 4 – Interest on government obligations

Corporations subject to California franchise tax must report all interest received on government obligations (such as federal, state, or municipal bonds). On line 4, enter all interest on government obligations that is not included in federal ordinary income (loss).

Corporations subject to California corporation income tax, see instructions for line 15.

Line 5 – Net California capital gain

Complete Schedule D, Side 2, and enter the California net capital gain from Schedule D, line 11.

Line 6 – Depreciation and amortization

California law is substantially different from federal law for corporations.

Complete form FTB 3885, Corporation Depreciation and Amortization (included in this booklet), to determine the amounts to be entered on line 6.

Line 7 – Income not included in federal consolidated return

Use this line to report the net income of corporations included in the combined report but not included in the federal consolidated return.

Line 8 – Other additions

Any miscellaneous items that must be added to arrive at net income after state adjustments (line 17) should be shown on this line. Attach a schedule to itemize amounts.

If any federal contribution deduction was taken in arriving at the amount entered on Form 100, Side 1, line 1, include that amount on line 8.

California ordinary net gain or loss. Enter any California ordinary net gain or loss from Schedule D-1, Sales of Business Property. Attach Schedule D-1.

Note: Business expense deductions are not allowed for payments to a club that restricts membership or the use of its services or facilities on the basis of age, sex, race, religion, color, ancestry, or national origin. "Club" means a club as defined in the Business and Professions Code, Div. 9, Ch. 3, Art. 4, beginning with Section 23425. Add back such deductions on this line.

Line 10, and Line 11 – Dividend deduction

See instructions for Schedule H (100), Dividend Income Deduction included in this booklet.

Line 12 – Federal capital gain net income

Enter the federal capital gain net income from federal Form 1120 or Form 1120A, line 8. The California net capital gain should have been added to income on line 5.

Line 13 – Contributions

The contribution deduction for a California corporation is limited to the adjusted basis of the assets being contributed.

For taxable years beginning on or after January 1, 1996, the contribution deduction is limited to 10% of California net income. Carryover provisions per IRC Section 170(d)(2) apply for excess contributions made during taxable years beginning on or after January 1, 1996.

On a separate worksheet, using the Form 100 format, complete Form 100, Side 1, line 1 through line 17 without regard to line 13, Contributions. If any federal contribution deduction was taken in arriving at the amount entered on Side 1, line 1, enter that amount as a positive number on line 8 of the Form 100 formatted worksheet. Enter the adjusted basis of the assets contributed on line 5 of the following worksheet. Then complete the worksheet that follows to determine the contributions to enter on line 13.

1. Net income after state adjustments from Side 1, line 17 _____
2. Deduction for dividends received _____
3. Net income for contribution calculation purposes. Add line 1 and line 2 _____
4. Contributions. Multiply line 3 by 10% (.10) _____
5. Enter the amount actually contributed _____
6. Enter the smaller of line 4 or line 5 here and on Side 1, line 13 _____

Get Schedule R to figure the contribution computation for apportioning corporations.

Line 14 – EZ, TTA, or LAMBRA business expense and/or net interest deduction

Businesses conducting a trade or business within an EZ, LAMBRA, or TTA may elect to treat a portion of the cost of qualified property as a business expense rather than a capital expense. For the year the property is placed in service, the business may deduct a percentage of the cost in that year rather than depreciate it over the life of the asset. For more information, get form FTB 3805Z; form FTB 3807; or form FTB 3809.

Also, a deduction may be claimed on this line for the amount of net interest on loans made to an individual or company doing business within an EZ or a TTA. For more information, get form FTB 3805Z or form FTB 3809.

Be sure to attach form FTB 3805Z; form FTB 3807; or form FTB 3809 if any of these

benefits are claimed. If the proper form is not attached, these tax benefits may be disallowed.

Line 15 – Other deductions

Include on this line deductions not claimed on any other line. Attach a schedule that clearly shows how each deduction was computed and explain the basis for the deduction.

For corporations subject to income tax (instead of the franchise tax), interest received on obligations of the federal government and on obligations of the State of California and its political subdivisions is exempt from income tax. If such interest is reported on line 4, it must be deducted on line 15.

Federal ordinary net gain or loss. Enter any federal ordinary net gain or loss from federal Form 4797, Sales of Business Property.

Line 18 – Net income (loss) for state purposes

If all corporate income is derived from California sources, transfer the amount on line 17 directly to line 18.

If only a portion of income is derived from California sources, complete Schedule R before entering any amount on line 18. Transfer the amount from Schedule R, line 24, to Form 100, line 18. Be sure to answer “Yes” to Question M on Form 100, Side 2.

If this line is a net loss, complete and attach the 2000 form FTB 3805Q to Form 100.

Line 19, Line 20, and Line 21

Note: The order in which line 19, line 20, and line 21 appear is not meant to imply the order in which any NOL carryover deduction or disaster loss deduction be taken if more than one type of deduction is available.

Line 19 – Net operating loss (NOL) carryover deduction

The NOL carryover deduction is the amount of the NOL carryover from prior years that may be deducted from income in the current taxable year.

If line 18 is a positive amount, enter the NOL carryover from the 2000 form FTB 3805Q, Part III, line 3 on Form 100, line 19. The loss may not reduce current year income below zero. Any excess loss must be carried forward. Attach a copy of the 2000 form FTB 3805Q to Form 100.

If the full amount of the NOL carryover may not be deducted this year, complete and attach a 2000 form FTB 3805Q showing the computation of the NOL carryover to future years.

If line 18 is a negative amount, corporations may not claim an NOL carryover deduction. Enter -0- on line 19. See the 2000 form FTB 3805Q instructions to compute the NOL carryover to future years.

If the corporation terminates its election to be taxed as an S corporation, thus becoming a C corporation, then only that portion of the prior NOL carryover incurred while it had C corporation status may be used to the extent it has not expired.

Line 20 – EZ, LARZ, TTA, or LAMBRA NOL carryover deduction

An NOL generated by a business that operates (operated) or invests (invested) within an EZ, the former LARZ, the TTA, or a LAMBRA receives special tax treatment. The loss may not reduce the corporation's current year income below zero. Any excess loss must be carried forward. Compute the corporation's EZ, TTA, or LAMBRA NOL using form FTB 3805Z, form FTB 3809, or form FTB 3807.

Enter the EZ, TTA, LARZ, or LAMBRA NOL carryover deduction from the corporation's form FTB 3805Z; form FTB 3809; form FTB 3807; or form FTB 3806, on Form 100, line 20. Attach a copy of the form FTB 3805Z; form FTB 3809; form FTB 3807; or form FTB 3806 to the Form 100.

Line 21 – Disaster loss carryover deduction

If you have a disaster loss carryover deduction, enter the total amount from the 2000 form FTB 3805Q, Part III, line 2, only if you have income in the current year. The loss may not reduce current year income below zero. Any excess loss must be carried forward.

Line 23 – Tax

Use rates listed in General Information B, Tax Rates, and C, Minimum Franchise Tax.

Line 24 through Line 28 – Tax credits

A variety of tax credits are available to California corporations to reduce tax. However, corporations may not reduce the tax (line 23) below the minimum franchise tax, if applicable.

Also, the amount of the credit that a corporation is allowed to claim may be limited. Generally, if the corporation completed federal Form 4626, Alternative Minimum Tax—Corporations, the corporation may have limited credits. Complete Schedule P (100) (included in this booklet) to compute this limitation.

Corporations claiming only:

- Enterprise zone hiring & sales or use tax credit;
- LARZ construction hiring & sales or use tax credit carryover;
- Solar energy credit carryover;
- Commercial solar energy credit carryover;
- Commercial solar electric system credit;
- Research credit;
- Orphan drug credit carryover;
- Low-income housing credit;
- Manufacturers' Investment Credit;
- Targeted tax area hiring and sales or use tax credit; and
- Natural Heritage Preservation Tax Credit

are not subject to the tentative minimum tax limitation.

Each credit is identified by a code number. See the credit code chart on page 14. To claim one, two, or three credits, enter the credit name, code number, and the amount of the credit on line 24, line 25, and line 26. To claim more than three credits, use Schedule P (100). List three of the credits on line 24,

line 25, and line 26. Enter the total of any remaining credits from Schedule P (100) on line 27. Do not make an entry on line 27 unless line 24 through line 26 are complete.

To figure tax credits, use the appropriate form or schedule. If the corporation claims a credit carryover for an expired credit, use form FTB 3540, Credit Carryover Summary, to figure the amount of credit, unless the corporation is required to complete Schedule P (100). In that case, enter the amount of the credit on Schedule P (100) and complete Schedule P (100). Do not attach form FTB 3540.

Attach the credit form or schedule and Schedule P (100), if applicable, to Form 100.

Line 29 – Balance

Subtract line 28 from line 23. Enter the result or the applicable minimum franchise tax, whichever is more. See General Information C, Minimum Franchise Tax.

Line 30 – Alternative minimum tax (AMT)

Enter on this line the AMT from Schedule P (100), Part I, line 19; or Part II, line 18, whichever is applicable.

Line 32 – Additional SOS prepayment tax

For taxable years beginning on or after January 1, 1999 but before January 1, 2000, the corporation must pay an additional \$500 on the original due date of the first required tax return if it:

- Incorporated as a QNC with the California SOS; and
- Paid the \$300 prepaid minimum tax to the California SOS; and
- Had gross receipts, less returns and allowances, exceeding \$1 million or tax liability exceeding \$800 during the first taxable year.

If the corporation is required to pay the additional SOS prepayment tax, enter \$500 on this line. See General Information Y, Qualified New Corporations (QNC), for more information.

Line 35 – 2000 estimated tax payments/excess SOS prepayment tax

Enter the total amount of estimated tax payments made during the 2000 taxable year on this line.

If the corporation incorporated or qualified with the California SOS and prepaid the \$800 minimum tax, but then during the taxable year met the requirements to be a QNC, include the additional \$500 prepaid minimum tax on this line. See General Information Y, Qualified New Corporations (QNC), for more information on the QNC requirements.

Line 38 and Line 39 – Tax due or overpayment

Revise the amount of tax due or overpayment, if applicable, by the amount on Side 2, Schedule J, line 6. See instructions for Schedule J.

Line 40 – Amount to be credited to 2001 estimated tax

If the corporation chooses to have the overpayment credited to next year's estimated

tax payment, the corporation cannot later request that the overpayment be applied to the prior year to offset any tax due.

Line 42 and Line 43 – Penalties and interest
Enter on line 42 the amount of any penalties and interest due. Complete and attach form FTB 5806, Underpayment of Estimated Tax by Corporations, to the front of Form 100, only if Exception B or Exception C is used in computing or eliminating the penalty. Be sure to check the box on line 43.

Schedules

Schedule A – Taxes Deducted

Enter the nature of the tax, the taxing authority, the total tax, and the amount of the tax that is not deductible for California purposes on Form 100, Side 3, Schedule A.

Schedule D – Capital Gain or Loss

California law does not conform to the federal reduced capital gains tax rates. California taxes capital gains at the same rate as other types of income. California does not allow a three-year carryback of capital losses.

Enter any unused capital loss carryover from 1999 on line 3.

Schedule F – Computation of Net Income

See General Information I, Net Income Computation, for information on net income computation methods.

Line 13 – Salaries and Wages

Gain from the exercise of California Qualified Stock Options (CQSOs) issued and exercised after 1996 and before 2002 can be excluded from gross income if the individual's earned income is \$40,000 or less. The exclusion from gross income is subject to AMT and the corporation is not allowed a deduction for the compensation excluded from the employee's gross income.

Line 28 – Specific deduction for 23701r or 23701t organizations

Political organizations

A political organization exempt under R&TC Section 23701r must file Form 100 and report "political taxable income" in excess of \$100.

"Political taxable income" means all amounts received during the taxable year other than:

- Contributions of money or other property;
- Membership fees, dues, or assessments; and
- Proceeds from political fund raising or entertainment events, or proceeds from the sale of political campaign material not received in the ordinary course of any trade or business.

Political organizations are not subject to the minimum franchise tax nor are they required to make estimate payments. The tax is

computed under Chapter 3 of the Bank and Corporation Tax Law.

Enter the \$100 limit on Schedule F, line 28, as a qualified "specific deduction."

Exempt homeowners' associations

A homeowners' association exempt under R&TC Section 23701t must file Form 100 if it received nonexempt function gross income in excess of \$100. Form 100 may be required in addition to Form 199, California Exempt Organization Annual Information Return.

Nonexempt function gross income means gross income received during the taxable year other than amounts received from membership fees, dues, or assessments. Nonexempt function gross income includes the gross amount of such items as, but not limited to: interest, dividends, rents, royalties, sale of assets, and income from nonmembers.

Exempt homeowners' associations are not subject to the minimum franchise tax. The tax is computed under Chapter 3 of the Bank and Corporation Tax Law. Under Chapter 3, estimated tax payments may be required. Form 100 is due within 2 months and 15 days after the close of the taxable year.

Enter the \$100 limit on Schedule F, line 28, as a qualified "specific deduction."

Schedule G – Bad Debts Reserve Method

Only savings and loan associations, banks, and financial corporations may use the bad debt reserve method. Use the format below to prepare Schedule G below and attach the schedule to Form 100.

Schedule G Bad Debts — Reserve Method Complete only if a savings and loan association, bank, or financial corporation.

Schedule J – Add-On Taxes and Recapture of Tax Credits

Complete Schedule J if the corporation has credit amounts to recapture or is required to include installment payments of "add-on" taxes from:

- Last-in, first-out (LIFO) recapture resulting from an S corporation election;
- Interest computed under the look-back method for completed long-term contracts;
- Interest on tax attributable to installment sales of certain property or use of the installment method for non-dealer installment obligations; or

- IRC Section 197(f)(9)(B)(ii) election to recognize gain on the disposition of an IRC Section 197 intangible.

Revise the amount of tax due or overpayment on Form 100, line 38 or line 39, as applicable by the amount from Schedule J, line 6.

Installment payment of tax attributable to last-in, first-out (LIFO) recapture for corporations making an S corporation election.

A corporation that uses the LIFO inventory pricing method and makes an S corporation election must include a "LIFO recapture amount" in income for its last year as a C corporation. The corporation's LIFO recapture amount is equal to the excess of the inventory amount using the first-in, first-out

(FIFO) method, over the inventory amount using the LIFO method, at the close of the corporation's last taxable year as a C corporation.

The additional tax resulting from inclusion of the LIFO recapture in income is payable in four equal installments. The first installment is due on the original due date of Form 100 of the electing corporation's last year as a C corporation.

To determine the additional tax due to LIFO recapture, the corporation must complete Form 100, Side 1, through line 33, based on income that does not include the LIFO recapture amount.

On a separate worksheet using the Form 100 format, the corporation must complete the equivalent of Form 100, Side 1, line 18 through line 33, based on taxable income including the LIFO recapture amount. Form 100, Side 1, line 33, must then be compared to line 33 of the worksheet. The difference is the additional tax due to LIFO recapture.

Since Form 100, Side 1, line 33, does not include the additional tax due to LIFO recapture, corporations must include 1/4 of the additional tax on Schedule J, line 1 and adjust line 38 or line 39 accordingly. Attach the worksheet showing the computation.

Note: The electing S corporations must pay the remaining three installments of deferred tax with Form 100S.

Long-term contracts. If the corporation must compute interest under the look-back method for completed long-term contracts, complete and attach form FTB 3834, Interest Computation Under the Look-Back Method for Completed Long-Term Contracts. Include the amount of interest the corporation owes or the amount of interest to be credited or refunded to the corporation on Schedule J, line 2. If interest is to be credited or refunded, enter as a negative amount. Attach form FTB 3834 to Form 100.

Interest on tax attributable to payments received on installment sales of certain timeshares and residential lots. If the corporation elected to pay interest on the amount of tax attributable to payments received on installment obligations arising

from the disposition of certain timeshares and residential lots under IRC Section 453(l)(3), it must include the interest due on Schedule J, line 3a. For the applicable interest rates, get FTB Pub. 1138, Refund/Billing Information. Attach a schedule showing the computation.

Interest on tax deferred under the installment method for certain nondealer installment obligations. If an obligation arising from the disposition of property to which IRC Section 453A(c) applies is outstanding at the close of the year, the corporation must include the interest due under IRC Section 453A on Schedule J, line 3b. For the applicable interest rates, get FTB Pub. 1138.

IRC Section 197(f)(9)(B)(ii) election. Complete Schedule J, line 4 if the corporation elected to pay tax on the gain from the sale of an intangible under the related person exception to the anti-churning rules.

Credit recapture. Complete Schedule J, line 5, if the corporation completed the credit recapture portion of:

- FTB 3501, Employer Child Care Program/Contribution Credit; or
- FTB 3805Z, Part VI, Enterprise Zone Recapture of Deduction and Credits; or
- FTB 3806, Part IV, Los Angeles Revitalization Zone Recapture of Deduction and Credits; or
- FTB 3807, Part VI, Local Agency Military Base Recovery Area Recapture of Deduction and Credits; or
- FTB 3809, Targeted Tax Area (TTA) Hiring Credit & Sales or Use Tax Credit; or
- FTB 3808, Manufacturing Enhancement Area (MEA) Hiring Credit; or
- FTB 3535, Manufacturers' Investment Credit.

Schedule M-1 –Reconciliation of income (loss) per books with income (loss) per return.

Schedule M-1 is used to reconcile the difference between book and tax accounting for an income or expense item. The corporation must complete Schedule M-1 if total assets of the entity are at least \$25,000. The federal and state Schedule M-1 may be the same when you use the federal reconciliation method for net income computation. See General Information I, Net Income Computation, for more information. The Schedule M-1 will be different from the federal Form 1120, Schedule M-1, if using the California computation method for net income. The California computation method is generally used when the corporation has no federal filing requirement, or if the corporation maintains separate records for state purposes.

Principal Business Activity Codes

This list of principal business activities and their associated codes is designed to classify a business by the type of activity in which it is engaged to facilitate the administration of the California Revenue and Taxation Code. For taxable years beginning on or after January 1, 1998, these principal business activity codes are based on the North American Industry Classification System.

Using the list of activities and codes below, determine from which activity the company derives the largest percentage of its "total receipts." Total receipts is defined as the sum of gross receipts or sales (Side 3, Schedule F, line 1a) plus all other income (Side 3, Schedule F, lines 4 through 10). If the company purchases raw materials and supplies them to a subcontractor to produce the finished product, but retains title to the product, the company is considered a manufacturer and must use one of the manufacturing codes (311110-339900).

Once the principal business activity is determined, entries must be made on Form 100, Question E. For the business activity code number, enter the six-digit code selected from the list below. On the next line enter a brief description of the company's business activity. Finally, enter a description of the principal product or service of the company on the next line.

What's Changed

Forms and instructions impacted by the court decision in *Farmer Bros. Co. v. Franchise Tax Board* (2003) have been revised to disallow any deduction taken based on Section 24402. In *Farmer Bros. Co. v. Franchise Tax Board* (2003) 108 Cal App 4th, 134 Cal Rptr. 2d 390, the California Court of Appeal found that the R&TC Section 24402 deductible dividend provision discriminated against interstate commerce in violation of the Commerce Clause of the United States Constitution. R&TC Section 24402 provided for a deduction to the extent that the dividend payer was taxable in California. A statute that is held to be unconstitutional is invalid and unenforceable. Therefore, the deduction is not available.

Forms and instructions impacted by the court decision in *Ceridian v. Franchise Tax Board* (2000) have been revised to disallow any deduction taken based on Section 24410. In *Ceridian v. Franchise Tax Board* (2000) 85 Cal.App.4th 875, the Court of Appeal has determined that Section 24410, which provides a limited deduction for dividends received from an insurance company, is unconstitutional. As such, the statute is invalid and unenforceable. Therefore, the deduction is not available.

Specific Instructions

A corporation may eliminate or deduct dividend income when certain requirements are met. The available eliminations or deductions are described below.

Part I – Intercompany Dividends

A corporation may eliminate dividends received from unitary subsidiaries but only to the extent that the dividends are paid from unitary earnings and profits accumulated while both the payee and payer were members of the combined report (R&TC Section 25106).

Complete Schedule H (100), Part I and enter the total of column (d) on Form 100, Side 1, line 10.

Part II and Part III – Other Dividends

Part II has been deleted due to the *Farmer Bros. Co. v. Franchise Tax Board* decision (2003). See **What's Changed** paragraph.

Part III has been deleted due to the *Ceridian v. Franchise Tax Board* decision (2000). See **What's Changed** paragraph.

Instructions for Schedule P (100)

Alternative Minimum Tax and Credit Limitations — Corporations

References in these instructions are to the Internal Revenue Code (IRC) as of **January 1, 1998**, and to the California Revenue and Taxation Code (R&TC).

What's New

Newly Formed Corporations

For corporations that incorporate or qualify to do business in California on or after January 1, 2000, the prepayment of the minimum franchise tax to the Secretary of State (SOS) is no longer required. For the first taxable year the corporation will compute its tax liability by multiplying its state net income by the appropriate tax rate and will not be subject to the minimum franchise tax. The corporation will become subject to minimum franchise tax beginning in its second taxable year. The corporation will be required to make estimated tax payments based on the projected measured tax for its second and third taxable years.

New Natural Heritage Preservation Tax Credit (NHPTC)

The NHPTC is 55% of the fair market value of the qualified contribution of property donated to the state, any local government, or to any designated nonprofit organization. The credit is figured on FTB Form 3503, Natural Heritage Preservation Tax Credit.

Important Information

In general, California tax law conforms to the Internal Revenue Code (IRC) as of January 1, 1998. However, there are continuing differences between California and federal tax law. California has not conformed to most of the changes made to the IRC by the federal Internal Revenue Service Restructuring and Reform Act of 1998 (Public Law 105-206) and has not conformed to any of the changes made by the Tax and Trade Relief Extension Act of 1998 (Public Law 105-277), the Miscellaneous Trade and Technical Corrections Act of 1999 (Public Law 106-36), and the Ticket to Work and Work Incentives Improvement Act of 1999 (Public Law 106-170).

California law conforms to federal law regarding:

- The removal of the adjusted current earnings (ACE) depreciation adjustment.
- The use of the same depreciation recovery periods for regular tax and alternative minimum tax (AMT).
- The election by small property and casualty insurance companies to be taxed only on their taxable investment income, and to compute the ACE adjustment without regard to all other items of income and expense not included in gross investment income.
- The repeal of the installment method AMT adjustment for farmers. Farmers are allowed to use the installment method of accounting for purposes of AMT for payments received in taxable years beginning on or after January 1, 1997, for installment sales related to the sale or disposition of farm property made in

taxable years beginning on or after January 1, 1988.

- The treatment of merchant marine capital construction account funds as an adjustment item for AMT.

California does not conform to the following federal AMT provisions:

- The elimination of AMT for small businesses.
- The contribution deduction in excess of adjusted basis for appreciated property is still a tax preference item for California purposes.
- The federal repeal of the installment method for accrual basis taxpayers (IRC Section 536(a)). Accrual basis taxpayers may still use the installment method for California.

General Information

Unless stated otherwise, the term "corporation" as used in Schedule P (100) and in these instructions, includes banks, financial corporations, limited liability companies (LLCs) classified as corporations, and exempt organizations other than exempt trusts, but not S corporations.

California tax laws give special treatment to some types of income and allow special deductions and credits for some types of expenses. Corporations that benefit from these laws may have to pay AMT in addition to the minimum franchise tax.

Also use this schedule to figure credits that are limited by the tentative minimum tax (TMT) or that may reduce AMT.

See IRC Sections 55 through 59 for more information on figuring AMT. But note that R&TC Sections 23455, 23456, 23457, and 23459 modify IRC Sections 55 through 59.

Who Must File

Banks and corporations should file Schedule P (100) if the sum of: AMT adjustments, preference items, loss denials, other items as specified under IRC Section 59, and state net income exceeds \$40,000. Exempt organizations, other than exempt trusts with unrelated business income, should file Schedule P (100) if the sum of: AMT adjustments, preference items, loss denials, items specified under IRC Section 59, and state net unrelated business taxable income exceeds \$40,000. Exempt trusts should use Schedule P (541), Alternative Minimum Tax and Credit Limitations — Fiduciaries.

In addition, if the corporation claims credits that are limited by TMT (Part I, line 17), or if the corporation claims credits that reduce the AMT (Part I, line 19), the corporation must file Schedule P (100).

Members of a Combined Report

Alternative minimum taxable income (AMTI) and ACE are apportioned and allocated to California and to each taxpayer in the same

manner as net income for purposes of regular tax. A separate AMT calculation is required for **each** member of a combined report. Complete a separate Schedule P (100), Side 1 and Side 2, for **each** taxpayer included in the combined report. Attach the Schedule P (100) for each taxpayer member in the combined report **behind** the combined Schedule P (100) for all members. See instructions for Part I, line 4b, line 5a, line 5d, line 7b, line 9, and line 10.

Short Period Return

For a short period return, use the formula in IRC Section 443(d) to determine AMTI and AMT.

Credit for Prior Year AMT

If the corporation paid AMT for 1999 or has a carryover of credit for prior year AMT and has no AMT liability for 2000, the corporation may use this credit in 2000 to reduce its regular tax liability. Complete Part III to figure this credit.

Specific Line Instructions

Part I — Tentative Minimum Tax (TMT) and Alternative Minimum Tax (AMT) Computation

Line 2a — Depreciation of tangible property placed in service after 1986

Do not include depreciation adjustments attributable to a tax shelter farm activity or a passive activity on this line. Instead, include the adjustment on line 2g or line 2h.

Refigure the depreciation as follows: For property other than real property and property on which the straight-line method was used, use the 150% declining balance method, switching to straight-line for the first taxable year in which that method will give a higher depreciation deduction. Use the same life classes as used on the federal Form 4626, Alternative Minimum Tax — Corporations. For personal property having no asset depreciation range (ADR) class life, use 12 years. For residential rental and nonresidential real property, use the straight-line method over 40 years. Determine the depreciation adjustment by subtracting the recomputed depreciation from the California depreciation on form FTB 3885, Corporation Depreciation and Amortization. Enter the difference on this line.

If the corporation elected to depreciate a grapevine that was replanted in a vineyard as a result of phylloxera or Pierce's Disease infestation over 5 years instead of 20 years for regular tax, it must depreciate the grapevine over 10 years for AMT.

Note: Depreciation that is capitalized to inventory under the uniform capitalization rules must be refigured using the rules described above.

Line 2b — Amortization of certified pollution control facilities placed in service after 1986

For any certified pollution control facility placed in service in California after 1986,

figure the entry for this line in the same manner as line 2a (without reducing the basis by 20% under IRC Section 291(a)(5)), using the straight-line method of depreciation instead of 150% declining balance.

Line 2c – Amortization of mining exploration and development costs incurred after 1987

If the corporation elected the optional 10-year write-off under IRC Section 59(e) for all assets in this category, skip this line.

With respect to each mine or other natural deposit, (other than an oil, gas, or geothermal well) refigure the expenses (before the 30% reduction under IRC Section 291(b)) by amortizing them over 10 years beginning with the year in which the expenses were paid or incurred. Figure the adjustment by subtracting the refigured amount from the deduction taken under IRC Section 616(a) or 617(a) after the 30% reduction. Enter the amount on this line. If a loss resulted with respect to those expenses, see IRC Section 56(a)(2)(B).

Line 2d – Basis adjustments in determining gain or loss from sale or exchange of property

If the corporation disposed of property during the year, refigure the gain or loss from such sale taking into account the AMT adjustments on line 2a through line 2c. Enter the difference between the gain or loss reported for regular tax and the recomputed gain or loss. If the recomputed gain is less, or the loss is more, enter the difference as a negative amount. Otherwise, enter a positive amount.

Line 2e – Long-term contracts entered into after February 28, 1986

If the corporation entered into a long-term contract after February 28, 1986, determine the taxable income from the contract under the percentage of completion method of accounting as modified by IRC Section 460(b) and R&TC Section 24673.2 using AMT adjustments and tax preference items.

Determine the difference between that result and the amount determined for the contract in figuring the regular tax and enter the difference on this line. If the refigured taxable income is less than the result when determining the regular tax, enter the difference as a negative amount.

California has conformed to IRC Section 460(b)(2). This section requires the taxpayer to “look-back” to previous years during which the contract work for certain contracts was in progress. The taxpayer must compute interest on the difference between the tax that was actually paid and the tax that would have been paid if the taxpayer had known the actual contract prices and costs that would finally result.

Get form FTB 3834, Interest Computation Under the Look-Back Method for Completed Long-Term Contracts, to figure the interest due or to be refunded under the “look-back method.”

Line 2f – Installment sales of certain property

For regular tax purposes, corporations may use the installment method of accounting for sales

of certain property. For AMT, corporations may not determine income from dispositions of inventory or other property described in IRC Section 1221(1) using the installment method, except for certain dispositions of timeshares or residential lots, if the corporation elected to pay interest under IRC Section 453(l)(2)(B) (R&TC Section 24667).

If the corporation used the installment method for regular tax purposes, but was required for AMT purposes to report the entire gain in the year of disposition, the corporation may have adjustments with respect to those dispositions. Enter on this line as a negative amount the current year income the corporation reported for regular tax.

Farmers that received payments for a taxable year beginning on or after January 1, 1997, for qualified installment sales made in taxable years beginning on or after January 1, 1988, do not need to make an adjustment on this line.

Line 2g – Tax shelter farm activities (personal service corporations only)

Caution: To avoid duplication, if the corporation included AMT adjustments or tax preference items on this line, do not include them on any other line of this schedule.

Complete this line only if the corporation has a gain or loss from a tax shelter farm activity, as defined in IRC Section 58(a)(2), that is not a passive activity. If the tax shelter farm activity is a passive activity, the corporation must include the gain or loss with its other passive activities on line 2h.

Refigure all gains and losses reported for regular tax purposes from tax shelter farm activities using the AMT adjustments and tax preference items.

Figure the tax shelter farm activity gain or loss for AMT using the same rules the corporation used for regular tax except:

- Do not take any refigured loss unless the corporation is insolvent. See IRC Section 58(c)(1); and
- Do not offset gains from other tax shelter activities with any refigured loss.

Instead, suspend and carry over the loss to future taxable years until:

- The corporation has a gain in a future taxable year from that same tax shelter farm activity; or
- The corporation disposes of the activity.

Enter on this line the difference between the AMT tax shelter farm loss and the regular tax shelter farm loss.

Line 2h – Passive activities (closely held corporations and personal service corporations only)

Caution: To avoid duplication, if the corporation included AMT adjustments or tax preference items on this line, do not include them on any other line of this schedule.

Corporations may enter two kinds of adjustments on this line:

Regular passive activities. Refigure passive activity gains and losses for AMT by taking into account all AMT adjustments, tax preference items and AMT prior year

unallowed losses that apply to the passive activity.

Tax shelter passive farm activities. Refigure any gain or loss from a tax shelter passive farm activity taking into account all AMT adjustments, tax preference items, and AMT prior year unallowed losses. If the amount is a gain, it may be included on form FTB 3802, Corporate Passive Activity Loss and Credit Limitations, but if it is a loss, the adjustment for tax shelter passive farm activity is the loss the corporation reported for regular tax. The AMT loss carryover is the refigured AMT loss.

Note: If, at the end of the taxable year, the corporation's liabilities exceed the fair market value of the corporation's assets (insolvency), increase the passive activity loss allowed by that excess (but not more than the total loss). See IRC Section 58(c)(1).

Line 2i – Certain loss limitations

Refigure the allowable losses from at-risk activities and basis limitations applicable to partnerships, taking into account the AMT adjustments and tax preference items. See IRC Sections 59(h), 465, and 704(d). If the refigured loss is more than the loss reported for purposes of the regular tax, enter on this line as a negative amount the difference between the loss reported on the tax return for purposes of the regular tax and the refigured loss.

Line 2k – Merchant marine capital construction funds

Amounts deposited in these funds are not deductible for AMT. Earnings on these funds are not excludable from gross income for AMT. If the corporation deducted these amounts or excluded them from income for regular tax, add them back on line 2k.

Tax Preference Items

Line 3a – Depletion

In the case of mines, wells, and other natural deposits, enter the amount by which the deduction for depletion under IRC Section 611 is more than the adjusted basis of the property at the end of the corporation's taxable year. Figure the adjusted basis without regard to the depletion deduction and figure the excess separately for each property.

California conformed in 1993 to the federal repeal of the AMT depletion adjustment for independent oil and gas producers and royalty owners. See federal Form 4626, Alternative Minimum Tax, Corporations. However, your California depletion costs may continue to be different from the federal amounts because of prior differences in law and differences in basis.

See IRC Section 291(a)(2) for reduction in the amount allowable as a deduction in the case of iron ore and coal.

Line 3b – Appreciated property charitable deduction

Contributions deducted in excess of adjusted basis for regular tax purposes must be included as a tax preference item.

Refigure the charitable contributions deduction for AMT. Use only income and

deductions allowed for AMT purposes when refiguring the limit based on taxable income under IRC Section 170(b)(2). Any AMT carryover of charitable contributions is limited to the cost or other basis for any contribution in excess of adjusted basis with the exception of the Natural Heritage Preservation Tax Credit.

Line 3c – Intangible drilling costs

If the corporation elected the optional 60-month write-off under IRC Section 59(e) for all property in this category, skip this line.

Enter the amount by which excess intangible drilling costs exceed 65% of net income from oil, gas, and geothermal properties.

Figure excess intangible drilling costs as follows: From the intangible drilling and development costs allowable under IRC Section 263(c) or 291(b) (except costs in drilling a nonproductive well), subtract the amount that would have been allowable if these costs had been capitalized and either amortized over 120 months starting when production began or treated according to an election made under IRC Section 57(b)(2).

Net income from oil, gas, and geothermal properties is gross income from them, minus the deductions allocable to them, except for excess intangible drilling costs and nonproductive well costs.

Figure the line 3c amount separately for oil and gas properties that are not geothermal deposits and for oil and gas properties that are geothermal deposits.

Note: California conformed in 1993 to the limited federal repeal of intangible drilling costs preferences for independent producers. California now conforms to the limit on the benefit of the exclusion of the preference for intangible drilling costs of 40% of AMTI. See the instructions for federal Form 4626. Also, note that your intangible drilling costs amounts may differ from federal amounts because of prior differences in the law.

Line 3d – Reserves for losses on bad debts of savings and loan associations, banks, and financial corporations

Use this line to adjust the reserves of savings and loan associations and banks and financial institutions to which IRC Section 593 applies. Enter the excess of the deduction allowable for a reasonable addition to a reserve for bad debts, over the amount that would have been allowable had the institution always maintained its bad debt reserve based on actual experience.

Line 3e – Accelerated depreciation of real property placed in service before 1987

Enter on this line, but not less than zero, the difference between the depreciation taken for this property in determining the regular tax and depreciation as refigured using the straight-line method. Figure this amount separately for each property and include only positive adjustments. Use the straight-line method over the life of the property using the half-year convention and no salvage value.

Line 3f – Amortization of certified pollution control facilities placed in service before 1987

For any certified pollution control facility in California placed in service before 1987 (or before August 1, 1986, if an election was made), figure the amount by which the amortization allowable under IRC Section 169 is more than the depreciation deduction otherwise allowable. Before figuring this tax preference item, reduce the amortizable basis by 20% (15% if the facility was placed in service in 1983 or 1984, 0% if placed in service before 1983), as required under IRC Section 291. Multiply the difference above by 59.6% (71.6% if the facility was placed in service in 1983 or 1984, 100% if placed in service before 1983). Enter only positive amounts.

Line 4b – Apportioned pre-adjustment alternative minimum taxable income (AMTI)

For taxpayers required to apportion their income, pre-adjusted current earnings (ACE) adjusted AMTI is apportioned and allocated to California in the same manner as net income for purposes of the regular tax. This may be done by transferring the amount from line 4a to Schedule R, Apportionment and Allocation of Income, line 1a. Refigure the Schedule R taking into account any AMT adjustments, then transfer the refigured net income from Schedule R, line 24 to Schedule P (100), line 4b.

For combined reports, each taxpayer's pre-ACE adjusted AMTI is the sum of (1) that corporation's apportioned share of combined business pre-ACE adjusted AMTI and (2) any of that corporation's California source pre-ACE adjusted AMTI. For additional guidance in making these computations, get FTB Pub. 1061, Guidelines for Corporations Filing a Combined Report.

Line 5a – ACE adjustment

If this schedule is for a regulated investment company or a real estate investment trust, skip this line.

The ACE adjustment is the pre-adjustment AMTI from line 4b with additional adjustments. California's ACE adjustment generally follows the federal ACE adjustment rules in IRC Section 56(g). To compute the California ACE, the federal ACE worksheet included in the instructions for the federal Form 4626 can be used by taking into account the modifications of R&TC Sections 23456 (e) and (f), if applicable. For example:

Taxes. Taxes on, according to, or measured by income are not deductible from earnings and profits (E&P). Foreign taxes on, according to, or measured by income are not deductible even though a foreign tax credit is not taken for federal purposes. Environmental taxes imposed by IRC Section 59A are not deductible from E&P.

Depreciation and amortization. For property placed in service on or after January 1, 1981, and before January 1, 1987, the amount allowable as depreciation or amortization must be determined using the straight-line method for each taxable year of useful life (determined without regard to R&TC

Section 24354.2) that the corporation has held the property.

For property placed in service on or after January 1, 1987, and before January 1, 1990, the amount allowable as depreciation or amortization must be determined by using the state AMTI depreciable basis as of the close of the taxable year beginning before January 1, 1990, and applying IRC Section 168(g). For property placed in service on or after January 1, 1990, and before January 1, 1998, use the ADS described in IRC Section 168(g). For property placed in service on or after January 1, 1998, the ACE depreciation is the same as the AMT depreciation.

Dividends. Dividends deductible for regular California tax purposes are deductible from E&P. The provision of IRC Section 56(g)(4)(C)(ii), for 100% dividend, does not apply.

The provisions of IRC Sections 56(g)(4)(C)(iii) and (iv), for dividends from IRC Section 936 companies and certain dividends received by certain cooperatives, do not apply.

Certain amortization provisions. IRC Section 56(g)(4)(D)(ii) was modified to specify that circulation expenditures under R&TC Section 24364 and organizational expenditures under R&TC Section 24407 do not apply to expenditures paid or incurred in taxable years beginning on or after January 1, 1990, for E&P calculations.

Interest income. For entities not subject to the minimum franchise tax, interest income included in E&P must not exceed the amount of interest income included for regular tax purposes.

Appropriate adjustments must be made to limit deductions from ACE for interest expense in accordance with the provisions of R&TC Sections 24344 and 24425.

Apportioning taxpayers and members of a combined report. ACE is apportioned and allocated to California in the same manner as net income for purposes of the regular tax and AMTI (FTB Legal Ruling 94-3). The method described in the instructions for line 4b may be used to compute the California ACE.

Line 5d – Excess of AMTI increases over AMTI reductions from prior year ACE adjustments

For combined reports, each taxpayer corporation enters the excess of its prior year positive California ACE adjustments over its prior year negative California ACE adjustments.

Line 7a

If a disaster loss carryover is claimed in 2000, enter the amount on this line.

Line 7b – AMT net operating loss (NOL) deduction.

The AMT net operating loss is the NOL determined for regular tax except:

1. For any taxable year beginning before 1988, reduce the NOL amount by any preference items attributable to the deferred tax that has not been paid;
2. In the case of a loss year beginning after 1987, the NOL determined for regular tax for such year must be:

- (a) Reduced by the positive AMT adjustments and increased by the negative AMT adjustments; and
 - (b) Reduced by the tax preference items (but only to the extent they increased the NOL as determined for regular tax);
3. Reduce the AMT NOL by any expired losses; and
4. The AMT NOL may not offset more than 90% of the AMTI, Part I, line 6.

Enter on line 7b the smaller of the AMT NOL or 90% of the amount on line 6.

Taxpayers that are members of a unitary group filing a combined report must separately compute the NOL carryover and application of the NOL carryover for each corporation in the group (R&TC Section 25108).

The amount carried over for AMT is likely to differ from the amount (if any) that is carried over for regular tax; therefore, it is essential that the corporation retain adequate records for both AMT and regular tax.

If you had a loss from a business activity within an enterprise zone, the former Los Angeles Revitalization Zone (LARZ), a Local agency military base recovery area (LAMBRA), or the Targeted Tax Area (TTA), get FTB 3805Z, Enterprise Zone Business Booklet; FTB 3806, Los Angeles Revitalization Zone Booklet; FTB 3807, Local Agency Military Base Recovery Area Booklet; or FTB 3809, Targeted Tax Area Booklet.

Line 9 and Line 10

The \$40,000 exemption and the \$150,000 limitation apply to each bank or corporation included in the combined report that has a filing requirement in California, to the extent that each bank or corporation has AMTI.

Line 16 – Banks and financial corporations

Corporations with negative or zero taxable income on Form 100, line 22, enter -0-.

Line 18 – Regular tax before credits

For installment obligations subject to IRC Section 453(l)(2)(B) (Timeshares and Residential Lots) and IRC Section 453A (Nondealer dispositions greater than \$150,000), do not include tax increases for interest on the deferred tax liability.

Line 19 – AMT

If line 17 is more than zero and if the corporation has credits or credit carryovers, continue to Part II. Otherwise, stop here and enter the amount, if any, from line 19 on Form 100, line 30; or Form 109, line 19.

Part II — Credits that Reduce Tax

Complete Part II only if the corporation has tax credits.

Use Part II to determine:

- The amount of credit that may be used to offset tax;
- The tax that may be offset;
- The amount of credit, if any, that may be carried over to future years; and
- The order in which to claim credits, if the corporation has more than one credit to claim.

Note: Credits are applied against the tax on a separate entity basis. Unless otherwise provided by statutory authority, specific credit(s) are only available to the corporation that incurred the expense that generated the credit(s).

Before you begin Part II:

- Complete Form 100 through line 23.
- Figure the amount of credit(s) using a schedule or the credit form identified in the Credit Table on the next page. Be sure to attach the credit form or schedule to the tax return, if applicable.

To complete Part II:

- Complete line 1 through line 3 to figure the amount of excess tax the corporation may offset by credits.
- Identify in which section(s) of Part II the corporation may take tax credit(s). Credits without carryover provisions are listed on Schedule P (100) in Section A1 and may be taken only in that section. Credits with carryover provisions are listed on the Credit Table on the next page. The table identifies the section(s) of Part II in which the corporation may take these tax credits.
- If the corporation has credit(s) in Section B, be sure to complete line 10 in addition to the line(s) for the corporation's credit(s).
- If the corporation's credit is taken in Section A2 or Section B, enter the credit code and the credit name in the space provided. Refer to the Credit Table for the credit code.
- Complete column (a) through column (d) for each line on which the corporation is taking a credit. Refer to "column instructions."
- If the corporation credit(s) are taken in more than one section, complete each section before going to the next section.
- Once the corporation has completed Part II, see "How to Claim Credits" on the next page.

Section A — Credits that reduce excess regular tax

Section A Instructions

Line 3 – Subtract line 2 from line 1. If the amount is zero or less than zero, continue to Question 1. If the amount is greater than zero, go to the Section A1 instructions.

1. Does the Credit Table show that the corporation may take the credit ONLY in Sections A1 or A2?
 - Yes.** Do not take the credit this year. Go to question 2.
 - No.** Go to Section B to figure the amount of credit the corporation may take this year. Then continue to Section C if the corporation's credit is listed in that section.
2. Does the credit have carryover provisions?
 - Yes.** Enter the credit code, credit name and credit amount (column (a)) in the section indicated by the table. Enter -0- in column (b). Enter the credit amount in column (d). This is the amount of the credit the

corporation may carry over and use in future years.

No. Do not take the credit this year or in future years.

Section A1 Instructions

Line 4 – If the corporation has the credit listed in this section, complete column (a) through column (c).

Section A2 Instructions

Line 5 through Line 9 – Follow the Credit Table Instructions to find out in which section to claim the credit. Then complete column (a) through column (d) for each credit in each section before going to the next section.

Note: Generally, it is to the corporation's advantage to apply credits with limited carryovers before credits with no limitation on the carryover. However, the corporation may want to apply credits with no limitation on carryover first if that is more advantageous.

Corporations may use these credits to reduce regular tax but not below TMT. The corporation may be able to, if applicable, use them in Section B or Section C or carry them over to future years. The credits that do not have shading in column (d) can be used in Section B, or carried over to future years, if applicable, after reducing the regular tax down to TMT.

Section B — Credits that may reduce regular tax below tentative minimum tax

Corporations may use these credits to reduce the regular tax below TMT. And corporations may carry over to future taxable years any credits remaining after reducing the regular tax down to the minimum franchise tax, if applicable. But, if the corporation has a tax balance and can continue to use the credit in Section C, apply the carryover in Section C.

Section B Instructions

Line 11 through Line 14 – Follow the Credit Table Instructions to find out in which section to claim your credit. Then complete column (a) through column (d) for each credit in each section before going to the next section.

Section C — Credits that may reduce alternative minimum tax

If the corporation has AMT and remaining solar energy credit carryover and commercial solar energy credit carryover after reducing the regular tax down to the minimum franchise tax, if applicable, the corporation may reduce AMT using these credits. Also, corporations may carry over to future taxable years any credits remaining after reducing the AMT to zero.

Section C Instructions

Line 16 and Line 17 – If the corporation has any of the credits listed in this section, complete column (a) through column (d) for each credit in the order listed.

Column Instructions – In column:

- (a) Enter the amount of credit available to offset AMT;
- (b) Figure the amount of credit the corporation is able to use this year by entering the smaller of the amount in column (a) or the amount in column (c) from the previous line;
- (c) Figure the amount of AMT remaining to be offset by other credits by subtracting the amount in column (b) from the balance in column (c) of the previous line; and
- (d) Enter the amount of credit carryover available to use in future years by subtracting the amount in column (b) from the amount in column (a).

How to Claim Credits

Claim credits by transferring them to Form 100 or Form 109 as follows:

Credits on line 4 through line 17

Form 100 – If the corporation claims only one, two, or three credits, enter the name, code number, and amount of the credit from column (b) on Form 100, line 24, line 25, and line 26. To claim credits that are listed in more than one section, total column (b) for the credits that have the same code numbers. Then enter the name, code number, and amount of the credit on Form 100, line 24, line 25, and line 26.

If the corporation has any other credits to claim, add the amounts from column (b) for those credits. Enter the total on Form 100, line 27.

Form 109 – If the organization claims only one to six credits, enter the name, code number, and amount of the credit from column (b) on Form 109, Schedule B, line 1 through line 6. To claim credits that are listed in more than one section, total column (b) for the credits that have the same code numbers. Then enter the name, code number, and amount of the credit on Form 109, Schedule B, line 1 through line 6.

If the organization has any other credits to claim, add the amounts from column (b) for those credits. Enter the total on Form 109, Schedule B, line 7.

Credit Table Instructions. To use the table:

- Find the corporation's credit(s) listed in the table.
- See which sections are identified in the columns under "Offset Tax in Section."
- Take the credit only in sections the table identifies for the corporation's credit.
- Use the credit in the earliest section possible.
- Complete each section before going to the next section.

Part III — Credit for Prior Year AMT

Use this part to figure the 2000 credit for prior year AMT if the corporation paid AMT for 1999 or had an alternative minimum tax credit carryover from 1999.

For members of a unitary group filing a combined report, compute the credit for prior year AMT for each entity in the current year's group.

Line 1

Enter the AMT from the 1999 Schedule P (100), Part I, line 19. If this amount was reduced by any commercial solar energy credit carryover or solar energy credit carryover, use the AMT from Section C, line 18 of the 1999 Schedule P (100.)

Line 2

Enter the credit for prior year carryover from the 1999 Schedule P (100), Part II, line 9, column (d).

Line 3

Enter this amount on Part II, line 9, column (a).

2000 Instructions for Form FTB 3805Q

Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations –Corporations

References in these instructions are to the Internal Revenue Code (IRC) as of **January 1, 1998**, and to the California Revenue and Taxation Code (R&TC).

What's New

The general Net Operating Loss (NOL) carryover percentage has changed. For taxable years beginning on or after:

- January 1, 2000 and before January 1, 2002, 55% of the NOL may be carried forward;
- January 1, 2002 and before January 1, 2004, 60% of the NOL may be carried forward; and
- After January 1, 2004, 65% of the NOL may be carried forward.

Also, any NOL incurred in any taxable year beginning on or after January 1, 2000 may be carried forward for 10 years.

General Information

In general, California tax law conforms to the Internal Revenue Code (IRC) as of January 1, 1998. However, there are continuing differences between California and federal tax law. California has not conformed to most of the changes made to the IRC by the federal Internal Revenue Service (IRS) Restructuring and Reform Act of 1998 (Public Law 105-206) and has not conformed to any of the changes made by the Tax and Trade Relief Extension Act of 1998 (Public Law 105-277), the Miscellaneous Trade and Technical Corrections Act of 1999 (Public Law 106-36), and the Ticket to Work and Work Incentives Improvement Act of 1999 (Public Law 106-170).

In 1998, the Franchise Tax Board (FTB) implemented the new principal business activity (PBA) code chart that is based on the North American Industry Classification System (NAICS) in the corporate tax booklets. However, the California R&TC still uses the Standard Industrial Codes (SIC) for purposes of the new business and eligible small business NOL.

The Los Angeles Revitalization Zone (LARZ) expired on December 1, 1998. No new LARZ NOLs may be generated. However, LARZ NOL carryovers can be utilized to the extent of business income apportioned to the former LARZ. Get FTB 3806, Los Angeles Revitalization Zone Business Booklet, for more information.

A Purpose

Use form FTB 3805Q to figure the current year NOL and to limit NOL and disaster loss carryover deductions.

Note: Exempt trusts should use form FTB 3805V, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations –Individuals, Estates, and Trusts.

The California NOL is figured the same way as the federal NOL, except that for California:

- An NOL may be carried over only to future years (no carrybacks are allowed); and
- The carryover period and the amount to be carried over differ from federal allowances.

Only a portion of the NOL may be eligible for carryover to future years because California has established different categories of NOL. See General Information F, Types of NOLs, for more information.

Note: If the corporation has a current year NOL under R&TC Section 24416.2, 24416.5, and 24416.6 (relating to EZ, LAMBRA, or TTA NOLs), the corporation **must elect** on its return for the taxable year in which the loss is incurred to carry over the loss either under that section or the loss under R&TC Section 24416 (relating to general NOLs). If the corporation elects to compute the NOL under R&TC Section 24416.1(c) (relating to EZ, LAMBRA, or TTA NOLs), the corporation must:

- Make the election in a statement attached to the original return; and
- Use the applicable economic development area (EDA) form to calculate the NOL.

The election is irrevocable. Get form FTB 3805Z, form FTB 3807, or form FTB 3809 for more information.

B Apportioning Corporations

The loss carryover for a corporation that apportions income is the amount of the corporation's loss, if any, after adding income or loss apportioned to California with income or loss allocable to California under Chapter 17 of the Bank and Corporation Tax Law. The

loss carryover may be deducted from income of that corporation apportioned and allocable to California in subsequent years.

C Combined Reporting

Corporations that are members of a unitary group filing a single return must use intrastate apportionment, separately computing the loss carryover for each corporation in the group using its individual apportionment factors (R&TC Section 25108). Complete a separate form FTB 3805Q for **each** taxpayer included in the combined report. Attach the form FTB 3805Q for **each** taxpayer member included in the combined report **behind** the combined form FTB 3805Q for all members.

Unlike the loss treatment for a federal consolidated return, a California loss carryover for one member in a combined report may not be applied to the income of another member included in the combined report. Get FTB Pub. 1061, Guidelines for Corporations Filing a Combined Report, for more information.

D Water's-Edge

Each taxpayer's NOL carryover is limited to the amount determined by recomputing the income and factors of the original worldwide combined reporting group as if the water's-edge election had been in force for the year of the loss. The NOL carryover may not be increased as a result of the recomputation.

E S Corporations

An S corporation is allowed to carry over a loss that is incurred during a year in which it has in effect a valid election to be treated as an S corporation. The loss is also passed through to the shareholders in the year incurred and is taken into account in determining each shareholder's NOL carryover, if any.

If a corporation changes from a C corporation to an S corporation, the loss incurred while the corporation was a C corporation may not be applied to offset income subject to the 1.5% tax imposed on an S corporation. However, losses incurred while the corporation was a C corporation may be applied

New Business NOL (NB) Get FTB Legal Ruling 96-5 for more information. Incurred by a trade or business that first commenced in California on or after January 1, 1994. During the first three years of business, 100% of an NOL may be carried over for an extended period, but only to the extent of the net loss from the new business. The term "new business" also includes any taxpayer engaged in biopharmaceutical activities or other biotechnology activities described in Codes 2833 to 2836 of the SIC Manual. It also includes any taxpayer that has not received regulatory approval for any product from the United States Food and Drug Administration. See R&TC Section 24416(g)(7)(A) for more information. If a taxpayer's NOL exceeds the net loss from the new business, the excess may be carried over as a general NOL. If a taxpayer acquires assets of an existing trade or business which is doing business in California, the trade or business thereafter conducted by the taxpayer or related person is not a new business if the fair market value (FMV) of the acquired assets exceeds 20% of the FMV of the total assets of the trade or business conducted by the taxpayer or any related person. To determine whether the acquired assets exceed 20% of the total assets, include only the assets that continue to be used in the same trade or business activity as were used immediately prior to the acquisition. For this purpose, the same trade or business activity means the same division classification listed in the SIC Manual. If a taxpayer or related person has been engaged in a trade or business in California within the preceding 36 months and thereafter commences an additional trade or business in California, the additional trade or business qualifies as a new business only if the activity is classified under a different division classification of the SIC Manual. Business activities conducted by the taxpayer or related persons wholly outside California are disregarded in determining whether the trade or business conducted within California is a new business. Related persons are defined in IRC Sections 267 or 318.	On or after 01/01/2000 Before 01/01/2000 Year of Business Year 1 Year 2 Year 3	100% 100% 100% 100%	10 Years 8 Years 7 Years 6 Years

If a taxpayer's NOL exceeds the net loss from an eligible small business, the excess may be carried over as a general NOL. If the corporation incurred losses while it was a C corporation and an S corporation, and the S corporation is using C corporation losses to offset its built-in gains, the corporation must complete two forms FTB 3805Q and attach them to Form 100S, California S Corporation Franchise or Income Tax Return. The unused losses incurred while the corporation was a C corporation are "unavailable" except as provided for above unless and until the S corporation reverts back to a C corporation or the carryover period expires.

Specific Line Instructions

Part I

Use Part I of this form to figure the current year NOL eligible for carryover.

Line 2 – If the corporation incurred a disaster loss during 2000, enter the amount of the loss on this line. Enter as a positive number.

Line 3 – If the amount is zero or less, the corporation does not have a current year general NOL. Go to Part II for computation of general NOL carryovers, the current year disaster loss, and carryover from disaster losses.

Line 7 – Go to Part II, Current Year NOLs, to record your 2000 NOL carryover to 2001. Complete columns (b), (c), (d), and (h) only, for each type of loss that you incurred.

If you have an eligible qualified new business or a small business and your NOL is greater than the amount of net loss from such a business, use the general NOL first. If you operate one or more new businesses and one or more eligible small businesses, determine the amount of the loss attributable to the new business(es), the small business(es), and the general NOL in the following manner. The NOL is first treated as a new business NOL to the extent of the loss from the new business. Any remaining NOL is then treated as an eligible small business NOL to the extent of the loss from the eligible small business. Any further remaining NOL is treated as an NOL under the general rules.

Part II

Use Part II to limit current year disaster loss and loss carryover deductions to current year income and to

record all of the corporation's loss carryover information.

If the corporation has losses from more than one source and/or more than one category, the corporation must compute the allowable NOL carryover for **each** loss separately.

When to use an NOL carryover

Use your NOLs in the order the losses were incurred. There is no requirement to deduct NOL carryovers before disaster loss carryovers.

Prior Year NOLs

Column (a) – Enter the year the loss was incurred.

Column (b) – If the loss is due to a disaster, enter the disaster code from the list below. If the loss is from a new business or eligible small business, enter the SIC Code for the new business or eligible small business from the Standard Industrial Classification Manual. DO NOT enter the code from the PBA chart available in the 2000 Form 100, Form 100W, or Form 100S booklets. If the loss was from an S Corporation, enter the entity's federal employer identification number from Schedule K-1 (100S).

Following is a list of events that have been declared disasters:

Year	Code	Event
2000	21	Napa County earthquake*
1999	20	Wildfires and other related casualties*
1999	19	Winter Freeze 98/99
1998		
1998	18	El Niño 98
1997	17	Disaster floods 96/97
1996		
1996	16	Firestorms 96*
1995	15	Storms, flooding, and other related casualties
1994	14	San Luis Obispo fire and other related casualties
1994	13	Los Angeles, Orange, and Ventura County earthquake and other related casualties
1993	12	Storms, floods, and other related casualties
1992	11	Wildfires and other related casualties in Calaveras and Shasta Counties
1992	10	San Bernardino County earthquake and other related casualties
1992	9	Riots, arson, and related casualties in California during April and May
1992	8	Humboldt County earthquake and related casualties
1992	7	Storms, floods, and other related casualties
1991	6	Oakland/Berkeley fire and other related casualties

Year	Code	Event
1990	5	Santa Barbara fires and other related casualties
1989	4	Bay Area earthquake and other related casualties
1987	3	Forest fires, October earthquake, and other related casualties
1986	2	Storms, floods, and other related casualties
1985	1	Forest fires and related casualties occurring in California

*Carryover period and percentage are limited to the NOL rules. No special legislation was enacted.

Column (c) – Enter the type of NOL from the table in General Information F, Types of NOLs. If using an EDA NOL, get the applicable form for the NOL type.

Column (d) – Enter the amount of the initial loss for the year given in column (a).

Column (e) – Enter the carryover amount from the 1999 form FTB 3805Q, Part II, column (h).

Column (f) – Enter the smaller of the amount in column (e) or the amount in column (g) of the previous line.

Column (g) – Enter the result of subtracting column (f) from the balance in column (g) of the previous line.

Column (h) – Subtract the amount in column (f) from the amount in column (e) and enter the result.

Current Year NOLs

Line 3 – Current year Disaster Loss

If you did not elect to deduct your current year disaster loss in the prior year, skip column (a), (b), and (c). In column (a), the year the loss was incurred -2000- is entered. In column (b), the disaster loss code -21- is entered. In column (c), the type of NOL -DIS- is entered.

- In column (d), enter your 2000 disaster loss from Part I, line 2.
- In column (f), enter the disaster loss used in 2000.
- In column (h), enter column (d) less column (f).

If you elected to deduct your 2000 disaster loss on your 1999 tax return, and you have an excess amount to be carried over to 2000, enter the carryover amount from your 1999 form FTB 3805Q, Part II, line 3, column (h), in Part II, line 2, column (e). Use the Prior Year NOL instructions for column (a) through column (h) except:

- In column (a), enter 2000;
- In column (b), enter the new disaster code; and
- In column (d), enter the total disaster loss incurred in 2000.

General Information

In general, California tax law conforms to the Internal Revenue Code (IRC) as of January 1, 1998. However, there are continuing differences between California and federal tax law. California has not conformed to most of the changes made to the IRC by the federal Internal Revenue Service (IRS) Restructuring and Reform Act of 1998 (Public Law 105-206) and has not conformed to any of the changes made by the Tax and Trade Relief Extension Act of 1998 (Public Law 105-277), the Miscellaneous Trade and Technical Corrections Act of 1999 (Public Law 106-36), and the Ticket to Work and Work Incentives Improvement Act of 1999 (Public Law 106-170).

For any taxable year beginning on or after January 1, 2000, California law does not conform to federal law regarding the temporary suspension

of income limitations on percentage depletion for production from marginal wells. The percentage depletion deduction may not exceed 65% of the taxpayer's taxable income and cannot exceed 100% of the net income derived from the oil or gas well property.

A Purpose

Use this form to figure California depreciation and amortization for corporations, and for partnerships and limited liability companies (LLCs) classified as corporations. S corporations must use Schedule B (100S). Individuals must use form FTB 3885A, Depreciation and Amortization – Individuals. Fiduciaries and exempt trusts must use form FTB 3885F, Depreciation and Amortization – Fiduciaries. Partnerships must use form FTB 3885P, Depreciation and Amortization – Partnerships. LLCs classified as partnerships must use form FTB 3885L, Depreciation and Amortization – Limited Liability Companies.

Depreciation and amortization are deductions corporations claim for reasonable exhaustion, wear and tear, and normal obsolescence of property used in a trade or business or held for the production of income.

For purposes of this form, depreciation is used in connection with tangible property, while amortization is used for intangible assets.

Note: For amortizing the cost of certified pollution control facilities, use form FTB 3580, Application to Amortize Certified Pollution Control Facility.

Important differences between federal and California laws affect the calculation of depreciation and amortization. Some of the major differences are briefly described, as follows:

- California law allows additional first-year depreciation under Revenue and Taxation Code (B&TC) Section 24356, rather than an election

to expense the cost of the property as provided in IRC Section 179;

- California law has not conformed to federal statutes allowing accelerated depreciation for property on Indian Reservations;
- California law allows a useful life of five years, instead of ten years, for grapevines planted as replacements for vines subject to Phylloxera or Pierce's Disease;
- California bank and corporation tax law has not conformed to the federal special class life for gas station convenience stores and similar structures;
- California has not conformed to federal statutes allowing depreciation under Modified Accelerated Cost Recovery System (MACRS) for corporations, except to the extent such depreciation is passed through from a partnership or LLC treated as a partnership;
- California has adopted provisions of the federal Class Life Asset Depreciation Range System (ADR), which specifies a useful life for various types of property. However, California law does not allow the corporation to choose a depreciation period that varies from the specified asset guideline system.

B Depreciation Calculation Methods

Depreciation methods are defined in R&TC Sections 24349 through 24354. Depreciation calculation methods, described in R&TC Section 24349, are as follows:

Straight-Line. The straight-line method divides the cost or other basis of property, less its estimated salvage value, into equal amounts over the estimated useful life of the property. An asset may not be depreciated below a reasonable salvage value.

Declining Balance. Under this method, depreciation is greatest in the first year and smaller in each succeeding year. The property must have a useful life of at least three years. Salvage value is not taken into account in determining the basis of the property, but the property may not be depreciated below a reasonable salvage value.

The amount of depreciation for each year is subtracted from the basis of the property and a uniform rate of up to 200% of the straight-line rate is applied to the remaining balance.

For example, the annual depreciation allowances for property with an original basis of \$100,000 are:

Year	Remaining basis	Declining-balance rate	Depreciation allowance
First	\$100,000	20%	\$20,000
Second	80,000	20%	16,000
Third	64,000	20%	12,800
Fourth	51,200	20%	10,240

Sum-of-the-years-digits method. This method may be used whenever the declining balance method is allowed. The depreciation deduction is figured by subtracting the salvage value from the cost of the property and multiplying the result by a fraction. The numerator of the fraction is the number of years remaining in the useful life of the property. Therefore, the numerator changes each year as the life of the property decreases. The denominator of the fraction is the sum of the digits representing the years of useful life. The denominator remains constant every year.

Other consistent methods. Other depreciation methods may be used as long as the total accumulated depreciation at the end of any taxable year during the first 2/3 of the useful life of the

property is not more than the amount that would have resulted from using the declining balance method.

C Period of Depreciation

Use the following information as a guide to determine reasonable periods of useful life for purposes of calculating depreciation. Actual facts and circumstances will determine useful life. Note, however, that the figures listed below represent the normal periods of useful life for the types of property listed as shown in IRS Rev. Proc. 83-35.

- Office furniture, fixtures, machines, and equipment 10 yrs.

This category includes furniture and fixtures (that are not structural components of a building) and machines and equipment used in the preparation of paper or data.

Examples include: desks; files; safes; typewriters, accounting, calculating, and data processing machines; communications equipment; and duplicating and copying equipment.

- Computers and peripheral equipment (printers, etc.) 6 yrs.
- Transportation equipment and automobiles (including taxis) 3 yrs.
General-purpose trucks:
Light (unloaded weight less than 13,000 lbs.) 4 yrs.
Heavy (unloaded weight 13,000 lbs. or more) 6 yrs.

- Buildings

This category includes the structural shell of a building and all of its integral parts that service normal heating, plumbing, air conditioning, fire prevention and power requirements, and equipment such as elevators and escalators.

Type of building:

Apartments	40 yrs.
Dwellings (including rental residences)	45 yrs.
Office buildings	45 yrs.
Warehouses	60 yrs.

D Depreciation Methods to Use

Corporations may use the straight-line method for any depreciable property. Before using other methods, consider the kind of property, its useful life, whether it is new or used, and the date it was acquired. Use the following chart as a general guide to determine which method to use:

Property description	Maximum depreciation method
Real estate acquired 12/31/70 or earlier	
New (useful life 3 yrs. or more) . . .	200% Declining balance
Used (useful life 3 yrs. or more) . . .	150% Declining balance
Real estate acquired 1/1/71 or later	
Residential Rental:	
New	200% Declining balance
Used (useful life 20 yrs. or more) . . .	125% Declining balance
Used (useful life less than 20 yrs.) . .	Straight-line
Commercial and industrial:	
New (useful life 3 yrs. or more) . . .	150% Declining balance*
Used	Straight-line
Personal property	
New (useful life 3 yrs. or more) . . .	200% Declining balance*
Used (useful life 3 yrs. or more) . . .	150% Declining balance

*Other depreciation methods may be used as long as the total accumulated depreciation at the end of any taxable year during the first 2/3 of the useful life of the property is not more than the amount that would have resulted from using the declining balance method.

The Guideline Class Life System of depreciation may be used for certain classes of assets placed in service before 1971.

The Class Life ADR System of depreciation may be used for designated classes of assets placed in service after 1970.

E Amortization

California conformed to the 1993 federal Revenue Reconciliation Act (Public Law 103-66) for the IRC Section 197 amortization of intangibles for taxable years beginning on or after January 1, 1994. Generally, assets that meet the definition under IRC Section 197 are amortized on a straight-line basis over 15 years. There may be differences in the federal and California amounts for intangible assets acquired in taxable years beginning prior to January 1, 1994. See R&TC Section 24355.5 for more information.

Amortization of the following assets is governed by California law:

Bond premiums	R&TC 24360 –24363.5
Research expenditures	R&TC 24365
Reforestation expenses	R&TC 24372.5
Organizational expenditures	R&TC 24407 –24409
Start-up expenses	R&TC 24414

Other intangible assets may be amortized if it is proved with reasonable accuracy that the asset has an ascertainable value that diminishes over time and has a limited useful life.

Specific Line Instructions

Line 1

Corporations may enter each asset separately or group assets into depreciation accounts. Figure the depreciation separately for each asset or group of assets. The basis for depreciation is the cost or other basis reduced by a reasonable salvage value (except when using the declining balance method), additional first-year depreciation (if it applies), and tax credits claimed on depreciable property (where specified). This may cause the California basis to be different from the federal basis.

If the Guideline Class Life System or Class Life ADR System is used, enter the amount, from a schedule showing the computation, on form FTB 3885, column (g), and identify as such.

Line 1, Column (h), Additional first-year depreciation

Corporations may deduct up to 20% of the cost of "qualifying property" in the year acquired in addition to the regular depreciation deduction. The maximum additional first-year depreciation deduction is \$2,000. Corporations must reduce the basis used for regular depreciation by the amount of additional first-year depreciation claimed.

"Qualifying property" is tangible personal property used in business and having a useful life of at least six years. Land, buildings, and structural components do not qualify. Property converted from personal use, acquired by gift, inheritance, or from related parties also does not qualify.

See R&TC Section 24356 and the applicable regulations for more information.

Note: An election may be made to expense up to 40% of the cost of property described in R&TC Sections 24356.6, 24356.7, and 24356.8. For more information, get form FTB 3809, Targeted Tax Area Deduction and Credit Summary; form FTB 3805Z, Enterprise Zone Deduction and Credit Summary; or form FTB 3807, Local Agency Military Base Recovery Area Deduction and Credit Summary.

Instructions for Form FTB 3539

Automatic Extension for Corporations and Exempt Organizations

General Information

Use form FTB 3539 only if:

- You cannot file your 2000 California (CA) return by the original due date; and
- You owe tax for the 2000 taxable year.

Use the worksheet on the following page to determine if you owe tax.

- If you do not owe tax, there is nothing to file at this time and no need to complete or mail this voucher.
- If you owe tax, complete the voucher and mail it along with your check or money order to the Franchise Tax Board by the original due date of the CA tax return.

If a corporation, including real estate investment trusts (REITs), real estate mortgage investment conduits (REMICs), regulated investment companies (RICs), limited liability companies (LLCs) electing to be treated as corporations, or an exempt organization in good standing, cannot file its CA tax return by the original due date, a seven month extension to file will be allowed automatically without filing a written request. To qualify for the automatic extension, the corporation or exempt organization must file its CA tax return by the due date. Its powers, rights, and privileges must not be suspended or forfeited by the Franchise Tax Board (FTB) or the Secretary of State (SOS) as of the original due date.

The extended due date for corporations is the 15th day of the 10th month following the close of the taxable year (fiscal year filers) or October 15, 2001 (calendar year filers). The extended due date for exempt organizations filing Form 199 or Form 109 is the 15th day of the 12th month following the close of the taxable year (fiscal year filers) or December 17, 2001 (calendar year filers).

The extended due date for an employees' trust defined in IRC Section 401(a) and an IRA filing Form 109 is the 15th day of the 11th month after the end of the taxable year (fiscal year filers) or November 15, 2001 (calendar year filers).

An extension of time to file the CA tax return is not an extension of time to pay the tax. To avoid late payment penalties and interest, 100% of the tax liability must be paid by the 15th day of the 3rd month (fiscal year corporations),

or the 15th day of the 5th month (fiscal year exempt organizations) following the close of the taxable year or March 15, 2001 (calendar year corporations), or May 15, 2001 (calendar year exempt organizations). Employees' trusts and IRAs must pay 100% of the tax liability by the 15th day of the 4th month after the end of the taxable year.

Save the completed worksheet as a permanent part of the corporation's or exempt organization's tax records along with a copy of the CA tax return.

Electronic Funds Transfer (EFT)

Corporations or exempt organizations that meet certain requirements must remit all of their payments through EFT rather than by paper checks. Corporations or exempt organizations that remit an estimated tax payment or extension payment in excess of \$20,000 or that have a total tax liability in excess of \$80,000 must pay through EFT. The FTB will notify corporations or exempt organizations that are subject to this requirement. If you are an EFT taxpayer, DO NOT USE THIS FORM. Those that wish to participate on a voluntary basis may do so. For more information, call (800) 852-2753 or get FTB Pub. 3817, Electronic Funds Transfer Program Information Guide.

Where to File

If tax is due and the corporation or exempt organization is not required to use EFT, attach a check or money order for the tax due to form FTB 3539. Write the California corporation number or FEIN and 2000 FTB 3539 on the check or money order. Mail only the voucher portion with the payment to:

FRANCHISE TAX BOARD
PO BOX 942857
SACRAMENTO CA 94257-0551

Private Mailbox (PMB) Number

If you lease a mailbox from a private business rather than from the United States Postal Service, enter the box number in the special field on the voucher labeled "PMB no."

Penalties and Interest

- If the corporation or exempt organization fails to pay its total tax by the original due date, a late payment penalty plus interest will be added to the tax due.
- If the corporation or exempt organization does not file its CA tax return by the extended due date, or the corporation's powers, rights, and privileges have been suspended or forfeited by the FTB or the California SOS, as of the original due date, the automatic extension will not apply and a delinquency penalty plus interest will be assessed from the original due date of the CA tax return.

Combined Reports

- If members of a combined unitary group have made or intend to make an election to file a Combined Unitary Group Single Return, only the key corporation designated to file the return should submit form FTB 3539. The key corporation must include payment of at least the minimum franchise tax for each corporation of the combined unitary group that is subject to the franchise tax in California.
- If members of a combined unitary group intend to file separate returns with the FTB, each member must submit its own form FTB 3539 if there is an amount entered on line 3 of the Tax Payment Worksheet.

Exempt Organizations

- **Form 100 filers:**
The due dates for corporations also apply to the filing of Form 100, California Corporation Franchise or Income Tax Return, by political action committees and exempt homeowners' associations.
Political action committees and exempt homeowners' associations that file Form 100 should not enter the minimum franchise tax on line 1 of the Tax Payment Worksheet.
- **Form 199 Filers:**
Generally, Form 199, California Exempt Organization Annual Information Return, requires a \$10 filing fee to be paid with the return on the original or extended due date.
Use form FTB 3539 only if paying the fee early. Enter the amount of the fee on line 3 of the Tax Payment Worksheet.
- **Form 109 Filers:**
The due dates for filing Form 109, California Exempt Organization Business Income Return, depend on the type of organization filing the return. Employees' pension trusts and IRAs (including education IRAs) must file on or before the 15th day of the 4th month after the close of their taxable year. All other exempt organizations (except homeowners' associations and political organizations) must file on or before the 15th day of the 5th month after the close of their taxable year.

TAX PAYMENT WORKSHEET FOR YOUR RECORDS

1 Total tentative tax. Include alternative minimum tax if applicable. See instructions	1		
2 Estimated tax payments including prior year overpayment applied as a credit	2		
3 Tax Due. If line 2 is more than line 1, see instructions. If line 1 is more than line 2, subtract line 2 from line 1. Enter the result here and on form FTB 3539	3		

How to Complete the Tax Payment Worksheet

Line 1 – Enter the total tentative tax, including the alternative minimum tax, if applicable, for the taxable year.

- If filing Form 100, Form 100W, or Form 100S and subject to franchise tax, the tentative tax may not be less than the minimum franchise tax and Qualified Subchapter S Subsidiary (QSub) annual tax (S corporations only).
- If filing Form 100, Form 100W, or Form 100S, and subject to income tax, enter the amount of tax. Corporations subject to the income tax do not pay the minimum franchise tax.
- If a corporation incorporates or qualifies to do business in California on or after January 1, 2000, the corporation will compute its tax liability for the first taxable year by multiplying its state net income by the appropriate tax rate and will not be subject to the minimum franchise tax. The corporation will become subject to minimum franchise tax beginning in its second taxable year.
- If filing Form 109, enter the amount of tax. Form 109 filers are not subject to the minimum franchise tax.

Line 2 – Enter the estimated tax payments, including prior year overpayment applied as a credit. S corporations include any QSub annual tax payments.

Line 3

Tax due. If the amount on line 1 is more than the amount on line 2, then the corporation's or exempt organization's tentative tax is more than its payments and credits. The corporation or exempt organization has tax due.

Subtract line 2 from line 1. Enter this amount on line 3 and on form FTB 3539.

If the amount on line 2 is more than the amount on line 1, the payments and credits are more than the tentative tax. The corporation or exempt organization has no tax due. **DO NOT SEND THE PAYMENT VOUCHER.** The corporation or exempt organization will automatically qualify for an extension if the CA tax return is filed by the extended due date.

2000 Instructions for Form FTB 3565

Small Business Stock Questionnaire

General Information

A Purpose

Use form FTB 3565, Small Business Stock Questionnaire, to provide information regarding issuance of stock pursuant to Revenue and Taxation Code (R&TC) Section 18152.5.

B Who Must File

A corporation must file form FTB 3565 if it qualifies as a "qualified small business" and issued stock pursuant to R&TC Section 18152.5 during the current taxable year.

Note: If there was more than one issuance of small business stock during the taxable year, fill out a separate form FTB 3565 for each issuance. For purposes of this form, all corporations which are members of the same parent-subsidary controlled group shall be treated as one corporation. A parent-subsidary controlled group is defined in Internal Revenue Code (IRC) Section 1563(a)(1), except that "more than 50%" shall be substituted for "at least 80%."

C When and Where to File

For taxable years beginning on or after January 1, 1996, a corporation is required to file form FTB 3565 along with Form 100, Corporation Franchise or Income Tax Return. Attach form FTB 3565 to Form 100 and file on or before the due date of the corporate return, including extensions.

Under authority granted in R&TC Section 18152.5, the Franchise Tax Board (FTB) requires the corporation to provide a copy of any completed form FTB 3565 to each shareholder that acquired qualified small business stock as part of the stock issuance that is reported on the completed form FTB 3565 during the current taxable year.

Failure to file this form by the corporation's original or extended return due date for the current taxable year may result in a penalty being assessed to the corporation pursuant to R&TC Section 19133.5. The penalty amount is \$50 per failure to file unless the failure is due to negligence or intentional disregard, then the penalty amount is \$100 per failure to file the form.

Failure of the corporation to file form FTB 3565 will not disqualify the stockholder from excluding gain from the sale or exchange of stock. However, the stockholder bears the burden of proving that the gain from the sale or exchange qualifies for exclusion pursuant to R&TC Section 18152.5.

Private Mailbox (PMB) Number

If you lease a mailbox from a private business rather than from the United States Postal Service, enter the box number in the special field on the form labeled "PMB no."

Specific Instructions

Item F –Principal business activity (PBA) code –Do not leave blank. Enter the 6 digit PBA code from the chart included in the 2000 Form 100, Corporation Tax Booklet or Form 100W, Water's-Edge Booklet. The code should be the number for the specific industry group from which the greatest percentage of California "total receipts" is derived. "Total receipts" means gross receipts plus all other income. The California PBA code number may be different than the federal PBA code number.

Questions G through P – If the answer to any of these questions is "No," stop. The stock issuance does not qualify under R&TC Section 18152.5. You do not need to complete the rest of this form. Do not attach this form to the Form 100 or Form 100W if you do not need to complete this form.

Question I – Disregard the stock and debt of any subsidiary corporation. Include the ratable share of the subsidiary's assets and the value of property received for this stock in determining the corporation's aggregate gross assets at the date of issuance of the non-treasury stock.

Question L – A domestic corporation is defined in IRC Section 7701(a)(4) as any corporation created or organized in any state in the United States.

Question O – A qualified trade or business is defined as any trade or business **other than:**

- Any trade or business involving the performance of services in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, consulting, athletics, financial services, brokerage services, or any

trade or business where the principal asset of the trade or business is the reputation or skill of one or more of its employees;

- Any banking, insurance, financing, leasing, investing, or similar business;
- Any farming business (including the business of raising or harvesting trees);
- Any business involving the production or extraction of products of a character with respect to which a percentage depletion deduction is allowable under IRC Sections 613 or 613A; and
- Any business of operating a hotel, motel, restaurant, or similar business.

Question P – If more than 10 percent of the total value of the corporation's assets consists of real property that is not used in the active conduct of a qualified trade or business, the stock issuance is not qualified. For the purpose of calculating the total value of the assets, any ownership of, dealing in, or renting of, real property shall not be treated as the active conduct of a qualified trade or business.

Question R – Enter the aggregate subscription amount of non-treasury stock issued by the corporation during the entire taxable year.

Question S – Enter the amount included in Question R, that was received for that part of the stock issuance that qualifies as small business stock under the provisions of R&TC Section 18152.5.

Note: Records should be maintained showing that the stock issuance met the requirements of R&TC Section 18152.5.

The amount that is entered in Question R and Question S should not include the value of stock issued in exchange for stock.

Question T – If there was more than one issuance of small business stock during the current taxable year, enter the date of the 1st issuance in Question T.

Question U – If there was more than one issuance of small business stock during the current taxable year, enter the date of the last issuance in Question U.
